INDEPENDENT AUDITORS' REPORT

To Shareholders and the Board of Directors of
Banco de Crédito e Inversiones

We have audited the accompanying consolidated financial statements of Banco de Crédito e Inversiones and subsidiaries (the "Bank"), which comprise the consolidated statements of financial position as of December 31, 2017 and 2016, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the accounting standards and instructions issued by the Superintendency of Banks and Financial Institution; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Chile. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Banco de Crédito e Inversiones and subsidiaries as of December 31, 2017 and 2016, and the results of their operations and their cash flows for the years then ended in accordance with accounting standards and instructions issued by the Superintendency of Banks and Financial Institutions.

Other matters

The accompanying financial statements have been translated into English for the convenience of readers outside Chile.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GENERAL INFORMATION

a) The Bank

Banco de Credito e Inversiones or Banco BCI (hereinafter the "Bank") is a bank incorporated in Chile and regulated by the Superintendency of Banks and Financial Institutions (hereinafter the "SBIF"). The registered office of the Bank is located at 125 El Golf Avenue, Las Condes, Santiago. The consolidated financial statements as of and for the years ended December 31, 2017 and 2016 include financial information of the Bank and its subsidiaries listed below, as well as its Miami Branch. The Bank's business consists of all of the businesses and transactions permitted by the General Banking Law, including retail, corporate and real estate banking, large and medium size companies' services, private banking and asset management services.

b) Basis of Preparation of the consolidated financial statements

The consolidated financial statements have been prepared in accordance with the Compendium of Accounting Standards and Instructions issued by the SBIF, the regulatory agency set up under Article 15 of the General Banking Law, which stipulates that, pursuant to legal provisions, banks must apply the accounting criteria issued by that Superintendency and, in all such matters not specifically covered by it, provided they do not contradict its instructions, banks must follow generally accepted accounting criteria established in International Financial Reporting Standards (hereinafter the "IFRS") issued by the International Accounting Standards Board (hereinafter the "IASB"). In case of any discrepancy between IFRS and SBIF, the latter should be followed.

Notes to the consolidated financial statements contain additional information to the presented in the consolidated statements of financial position, consolidated statements of income. consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows.

Consolidated financial statements of the Bank and Subsidiaries as of and for the year ended December 31, 2017 have been approved and authorized for issuance by the Board at meeting held on January 30, 2018.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

c) Controlled companies (subsidiaries)

The consolidated financial statements as of and for the years ended December 31, 2017 and 2016 include financial information of the Bank and controlled companies (subsidiaries) (hereinafter the "Group"). Control is achieved when the following conditions are met:

I. Power over the investee (i.e.: consists of having the rights that give the Bank the current ability to direct relevant activities of the investee);
II. Is exposed, or has rights, to variable returns from the Bank´s involvement with the investee; and
III. Has the ability to use power over the investee to affect the amount of returns.

When the Bank has less than a majority of voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Bank considers all relevant facts and circumstances in assessing whether or not the Bank's voting rights in an investee are sufficient to give it power, including:

- The size of Bank's voting rights relative to the size and dispersion of the other vote holders.
- Potential voting rights held by the Bank, other vote holders or other parties.
- Rights arising from other contractual arrangements.
- Any additional facts and circumstances that indicate the Bank has, or does not have, the current ability to direct relevant activities, at the time decisions need to be taken, including voting patterns at previous shareholders' meetings.

The Bank reassesses whether or not it controls an investee if facts and circumstances indicate there are changes in one or more of the three elements of control listed above.

Consolidation of a subsidiary ceases when the Bank loses control of the subsidiary. Income and expenses of a subsidiary disposed of during the year are included in the consolidated statements of income until the date when the Bank ceases to control the subsidiary.

The consolidated financial statements, include individual financial information of the Bank and its subsidiaries, as well as adjustments and reclassifications made to the consolidated financial statements of subsidiaries to bring their accounting policies into line with Bank's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The consolidated financial statements, consider the separate financial statements (individual) of the Bank and the consolidated companies, and include the adjustments and reclassifications required to conform the accounting policies and valuation criteria applied by the Bank, as well as the elimination of all balances and transactions between consolidated companies.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

In addition, third party interest in the equity of the Bank is presented as “Non-controlling Interest” in the consolidated statements of financial position. Its share in profit or loss is presented as “Consolidated net income for the year attributable to non-controlling interest” in the consolidated statements of income. Its share in total comprehensive income for the year is presented as “Consolidated total comprehensive income for the year, attributable to non-controlling interest” in the consolidated statements of comprehensive income.

The following table represents the entities over which the Bank exercises control:

i. Entities controlled by the Bank through interest ownership:

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Information and corporate purposes of the entities controlled by the Bank, are as follows:

Analisis y Servicios S.A. was established as a closely held corporation by public deed dated August 19, 1996, and started its operations on November 1, 1996. Its corporate purpose is activities on behalf of financial institutions, pre-evaluation of all financial products and services these institutions are involved in and performance of all activities or operations necessary for the pursuit of its objective.

BCI Asset Management Administradora de Fondos S.A. was incorporated by public deed dated January 7, 1988. Its corporate purpose is management of all types of mutual funds. investment funds and individual portfolios regulated by Law No. 20.712, including the development of voluntary pension savings plans "Voluntary Pension Savings" ("APV" for its acronym in Spanish) and "Collective Voluntary Pension Savings" ("APVC" for its acronym in Spanish), other complementary activities authorized by the SVS through Circular No. 1.566 of 2001, and the administration of third parties' funds and portfolios, authorized by Circular No. 1.897 of 2008.

BCI Asesoria Financiera S.A. was established as a closely held corporation by public deed dated October 23, 1992. Its corporate purpose is provision of advice on the analysis, evaluation and search of alternative financing sources, on the restructuring of liabilities, on the negotiations to acquire, capitalize, sell or merge companies, on the issuance and placement of bonds and debentures and on the placement of equity.

BCI Corredor de Bolsa S.A. was incorporated by public deed dated July 24, 1987. Its corporate purpose is provision of financial instruments brokering operations, and in general, all the activities permitted to a stockbroker by the law.

BCI Corredores de Seguros S.A. was incorporated by public deed dated January 15, 1997. Its corporate purpose is provision of remunerated brokering operations with general and life insurance contracts with any insurance company located in the country, and the provision of advisory services and services related to the contracting of insurance.

BCI Factoring S.A. was incorporated by public deed dated December 13, 1994. Its corporate purpose is provision of all kinds of factoring services; acquisition and discounting of documents and commercial papers, in general, development and operation of different types of factoring businesses; investment, reinvestment and acquisition of dues; shares or rights; all types of movable, tangible or intangible property, real estate; and legal entities; civil societies, companies or associations; or realisation of takeovers, investment in all kinds of securities; management and exploitation of such property under any title; and receiving profit from them.

BCI Securitizadora S.A. was established as a closely held corporation by public deed dated March 1, 2001. Its corporate purpose is the acquisition of the credits referred to in Article No. 135 of Law No. 18.045 (i.e. mortgage loan, finance leases, concession rights) or the rules that replace or complement it, and the issuance of debt securities, short or long term, causing for each issuance the formation of capital separate from its own, supervised by the SVS.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Banco de Credito e Inversiones Sucursal Miami is a branch of Banco de Credito y Inversiones, established in the State of Florida in the United States of America. The branch was initially authorized to operate as an international banking agency by the Department of Banking and Finance of the State of Florida on May 10, 1999. The branch is not a separate legal entity, it carries out banking activities that provide a complete range of banking services to national and foreign physical persons and legal entities, mainly from Latin America.

Servicio de Normalizacion y Cobranza, Normaliza S.A. is closely held corporation, which was incorporated by public deed dated June 8, 1990. Its corporate purpose is the provision of extrajudicial collection services, on its own account or on behalf of others, on any document representing liability, as well as performance of the background check of physical persons or legal entities, the delivery of commercial reports and any other business that the stockholders agree to execute.

BCI Securities Inc. was established in the State of Florida, United States of America on July 6, 2011. Its corporate purpose is to buy and sell stocks, mutual funds, corporate debt, US government bonds, sovereign debt, and call and put options for its customers, primarily residents of South America. BCI Securities Inc. may establish network agreements with banks, savings banks or credit unions.

BCI Corredores de Bolsa de Productos S.A. was established by public deed dated April 16, 2015. Its sole corporate purpose is to act as intermediary in operations with agricultural products, as established in Articles Four and Five of the Law No. 19.920, as broker of agricultural products, including the purchase or sale of products in the Agricultural Products Stock Exchange for its own account with the aim of transferring rights thereto, and the complementary activities authorized by the SVS, for which it may execute all actions and enter into all contracts and act as intermediary in operations of the Agricultural Products Stock Exchange, according to the regulation in force.

BCI Financial Group. Inc. and Subsidiaries a parent company of City National Bank (CNB), was acquired in 2015. CNB is a banking financial institution established in 1946 with headquarters in Miami, offering a wide range of financial products (including real estate. commercial and consumer banking) to more than 22,000 customers, with 26 branches in four Florida counties. On March 10, 2017, the SBIF issued Letter No. 02751, which granted approval to carry out leasing transactions through a new subsidiary of CNB. The new subsidiary of CNB is a corporation that began operations on June 28, 2017 under the corporate name of City National Capital Finance, Inc. (CNCF).

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

ii. Entities controlled by the Bank through other considerations:

Although the Bank holds less than the majority of voting rights in the following companies, they are considered subsidiaries since the Bank exercises control through ability to direct the relevant activities and oversight of financial and operational policy decisions:

	Ownership interest			
	Direct		Indirect	
Entity	2017	2016	2017	2016
	%	%	%	%
BCI Activos Inmobiliarios Fondo de Inversión Privado	40.00	40.00	-	-
Incentivos y Promociones Limitada (1)	SE	SE	SE	SE

(1) Structured Entity (“SE”) is responsible for the promotion of credit and debit card products. The Bank does not hold any ownership interest in that company.

d) Associates

An associate is an entity over which the Bank has significant influence. Significant influence is the power to participate in the financial and operational policy decisions of the investee but is not control or joint control.

In general, if the Bank holds more than 20% but less than 50% of the voting power of an investee, it is presumed that the Bank has significant influence over an investee. The following factors also might be indicators of significant influence: Having representatives on the Board of Directors, participating in policy-setting processes, significant transactions between the Bank and the associate, interchange of managerial personnel and provision of essential technical information.

These investments are accounted for using the equity method. The investment in an associate is originally recognized at cost. Subsequently, the investment is recognized in the statements of financial position based on its cost plus its share of earnings since the acquisition date.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The following entities are considered associates:

Company	**Ownership interest**	
	2017	**2016**
	%	%
Artikos Chile S.A.	50.00	50.00
Servipag Ltda.	50.00	50.00
Centro de Compensación Automatizado S.A.	33.33	33.33
AFT S.A.	20.00	20.00
Nexus S.A.	12.90	12.90
Redbanc S.A.	12.71	12.71
Servicio de Infraestructura de Mercado OTC S.A.	13.61	13.61
Combanc S.A.	10.33	10.33
Transbank S.A.	8.72	8.72
Sociedad Interbancaria de Depósitos de Valores S.A.	7.03	7.03
Credicorp Ltd. (*)	-	1.93

(*) In January 2017, the Bank ceased to have a Board Member in Credicorp Ltd. and, as a result, significant influence over this company. In accordance with the requirements established by Chapter C-3 of the Compendium of Accounting Rules issued by the SBIF, the Bank discontinued the use of the equity method and from that date and forward this is considered as an investment in other companies valued at cost (see Note 3 - Significant Events).

Entities in the table above, in which the Bank holds less than 20%, are still considered associates given the Bank's ability to appoint a member to their Board of Directors, one consideration that the Bank has considered to determine its significant influence over such associates.

e) Investments in other companies

In this category are presented those entities over which the Bank has neither control nor significant influence. It includes non controlling interests in local and foreign companies, which according to SBIF regulations, are recorded at cost and subject to impairment tests when indicators have been identified.

As of December 31, 2017 the Bank has investments in the following companies: SWIFT, BLADEX, Credicorp Ltd., and others.

The Bank has a 1.83% stake in Credicorp Ltd.. As previously indicated in letter d) above. for this investment the Bank discontinued using the equity method, see Note 3. Significant events for additional information.
As of December 31, 2016 the Bank had investments in the following companies: SWIFT, FED, fhlb, BLADEX and others.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

f) Basis of consolidation

The consolidated financial statements comprise financial information of the Bank and its subsidiaries as of December 31, 2017 and 2016 and for the years then ended.

The subsidiaries' financial statements (including the structured entity controlled by the Bank) were aligned with the financial statements of the Bank according to the rules set in the Compendium of Accounting Standards and Instructions issued by the SBIF.

The intercompany balances and any income or expense arising from intercompany transactions between Group entities are eliminated in full on consolidation. The unrealized income or expense arising from transactions with associates are eliminated to the extent of the Group's interest in these companies.

For consolidation purposes, the assets and liabilities of BCI Financial Group, Inc. and subsidiaries and BCI Securities Inc. are translated into Chilean Pesos using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the monthly average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (and attributed to non-controlling interest as appropriate).

g) Non-controlling interest

Non-controlling interest represents the portion of profit or loss and net assets of subsidiaries not owned, directly or indirectly, by the Bank. Non-controlling interests are presented separately in the consolidated Statements of Income, the consolidated statements of comprehensive income and consolidated statements of financial position.

h) Functional currency

The Bank has determined its functional currency and presentation currency as Chilean Peso (Ch$). Likewise, all the entities of the Group have determined the Chilean Peso as the functional currency, except for BCI Financial Group, Inc. and subsidiaries and BCI Securities, Inc., which have determined the US dollar as their functional currency.
All the information presented in Chilean Pesos has been rounded to the closest millions of Chilean Pesos.

i) Transactions in foreign currency

Balances and transactions denominated in currencies different from the Chilean peso are considered as denominated in "foreign currency". Transactions carried out by each entity in currencies other than its functional currency are recognized using the exchange rates prevailing at the date of the transaction. During the period, the differences that arise between the prevailing exchange rate at the date of the transaction and the exchange rate as of the date of collection or payment are recognized in "Foreign exchange results, net" in the consolidated statements of income.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The differences that arise from translation of transactions denominated in foreign currency into functional currency are recognized as “Foreign exchange gains, net” in the consolidated statements of income.

As of December 31, 2017 and 2016, the assets and liabilities of the Bank denominated in foreign currency are shown at their convertedvalue in Chilean pesos.

j) Operating segments

Operating segments are determined by the Bank on the basis of its different business units:

(i) That engage in business activities from which the Bank may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Bank).
(ii) Whose operating results are regularly reviewed by the entity’s chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and
(iii) For which discrete financial information is available.

These operating segments deliver products and services subject to different risks and returns and therefore the chief operating decision makers of the Bank separately evaluate their individual performance.

k) Measurement of assets and liabilities

Measurement criteria of the assets and liabilities recognized in the consolidated statements of financial position are the following:

i. Assets and liabilities measured at amortized cost:

The amortized cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

In the case of financial assets, the amortized cost also includes adjustments to their value caused by any recognized impairment.

In the case of financial instruments, the systematic part reflected in the profit and loss is recognized by the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

ii. Assets and liabilities measured at fair value:

For financial instruments traded in active markets, the determination of fair values is based on their listed or recent transaction prices. This includes instruments traded in domestic or international stock markets.

A financial instrument is considered quoted on an active market, if prices are regularly and freely available on a stock, index, broker, dealer, supplier prices or regulatory agency and those prices represent current and regular market transactions. If the market does not meet that condition, it is considered inactive. The lack of recent transactions or a too wide spread between bid-offer prices, are indications that the market is inactive.

For all other financial instruments, fair value is determined using valuation techniques. The valuation techniques used should maximize the use of relevant observable inputs with respect to similar financing instruments. The fair value is estimated using models to estimate the present value of the expected cash flows or other valuation techniques, using inputs (e.g. deposits, swaps, exchange rates, volatilities, etc.) observable at the date of the consolidated financial statements.

As of the dates of the consolidated financial statements, the Bank has no instruments whose fair value had been determined based on significant unobservable data. However, for this type of instruments, the Bank has models developed internally, which are based on techniques and methods generally recognized in the industry. When the data used in the models is unobservable, the Bank must develop assumptions in order to estimate the fair values. These valuations are known as Level 3 valuations. Instruments classified according to their valuation level are detailed in Note 34 to the consolidated financial statements.

The results of the models are always an estimate or approximation of the value and cannot be determined with certainty. Valuations are adjusted, when applicable, in order to reflect additional factors, such as liquidity or credit risks of the counterparty based on the model and the credit risk policies of the Bank. Management estimates that these adjustments to the valuations are necessary and appropriate in order to reasonably present the fair values of the financial instruments in the consolidated financial statements. The information, prices and parameters used in the valuations are carefully and regularly checked, and adjusted if necessary.

iii. Assets and liabilities measured at historic cost:

Historic cost measurement is the recognition of the asset at the consideration paid for the purchase of the asset, less impairment losses if applicable.

The consolidated financial statements have been prepared based on a historic cost basis, except for:

- Derivative financial assets/liabilities, measured at their fair value.
- Repossessed assets, measured at the lower of carrying amount or fair value less costs to sell.
- Trading portfolio financial assets, measured at their fair value.
- Financial investments available for sale, measured at their fair value.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

iv. Derecognition of financial assets and liabilities:

The accounting treatment of transfers of financial assets depends on the extent and the manner in which the risks and rewards associated with the financial assets are transferred to third parties:

1. If the Bank transfers substantially all the risks and rewards of ownership to third parties, as in the case of unconditional sales of financial assets, sales under repurchase agreements at fair value at the date of repurchase, sales of financial assets with a purchased call option or written put option deeply out of the money, utilization of assets in which the transferor does not retain subordinated debt nor grants any credit enhancement to the new holders, and other similar cases, the transferred financial asset is derecognized from the Consolidated Statement of Financial Position and any rights or obligations retained or created in the transfer are simultaneously recorded.

2. If substantially all the risks and rewards of the transferred financial asset are retained, such as the financial assets sale with a resale agreement at a fixed price or at sale price plus interest, the contracts for securities in which the borrower has the obligation to return the same or similar assets, among other similar cases, the transferred financial asset is not derecognized from the consolidated financial statements and continuously measured under the same criteria which were applied before the transfer. Consequently, it recognizes:

a) A financial liability for an amount equivalent to the consideration received that is subsequently measured at amortized cost.

b) Any income on the transferred (but not derecognized) financial asset and any expenses incurred with respect to the recorded financial liability.

3. If the Bank neither transfers nor retains substantially all the risks and rewards of the financial asset transferred, such as the sale of financial assets with the option to buy or sell issued with a high or low probability of exercising it, the use of assets where the grantor does not retain subordinated financing or give up a credit improvement for a portion of the transferred asset among other similar cases, it distinguishes between:

a) If the Bank does not retain the control of the transferred financial asset: then it is derecognized from the consolidated statements of financial position and any withheld right or obligation is recognized or created as a consequence of the transfer.

b) If the Bank maintains control of the financial asset: then it continues recognizing the asset in the consolidated statements of financial position and recognizes a financial liability associated with the financial asset. The net amount of the asset and the associated liability will be the amortized cost of the withheld rights and obligations if the asset is measured by its amortized cost or the fair value of the withheld rights and obligations if the asset is measured by its fair value.

Accordingly, financial assets are derecognized from the consolidated statements of financial position when, and only when, the contractual rights to the cash flows from the financial asset expire; or when the Bank transfers the financial assets and substantially all the risks and rewards of ownership of the assets to third parties.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Similarly, financial liabilities are derecognized from the consolidated statements of financial position when, and only when, the obligations are extinguished, cancelled or expired.

l) Investment instruments

Investment instruments are classified into two categories: held to maturity and available for sale. The category of financial assets held to maturity includes only those instruments which the Bank has the capacity and intention of holding until their maturity. The rest of the investment instruments are considered as available for sale.

Investment instruments are initially recognized at their fair value, including transaction costs. The available for sale instruments are then marked to market at their fair value according to market prices or valuations obtained from models. The unrealized gains or losses originated by the change in their fair value are recognized in other comprehensive income. When these investments are sold the available for sale investment instruments' reserve accumulated in other comprehensive income associated with these instruments is reclassified to the consolidated statements of income and recognized under "Trading and investment income, net" heading as well as any realized gain/loss on disposal. In the case of a significant or prolonged decline in the fair value of any of these instruments, an impairment is recognized by a reclassification from other comprehensive income to the line item "Impairment" in the statements of income.

The investments in held to maturity financial assets are subsequently measured at their amortized cost plus interest and indexation for inflation, less impairment constituted when its carrying amount exceeds the estimated recovery value.

The interest and indexation for inflation of held to maturity and available for sale investments are included in the "Interest income" line in the consolidated statements of income.

The purchases and sales of investment instruments that must be submitted within the period established by the market's regulations or conventions are recognized at their trade date, on which the purchase or sale of the asset is agreed. All other purchases and sales are recognized at their settlement date.

m) Trading investments

The trading investments correspond to securities acquired with the intention to generate profits from the price fluctuation in the short-term or through gross earnings' margins, or that are included in a portfolio in which there is a short-term profit taking strategy.

Trading investments are measured at their fair value in accordance with the market prices at the reporting date of the consolidated financial statements. The transaction costs are recognized directly in the consolidated statements of income. The mark to market adjustments, as well as the realized income/loss from trading activities, are included under the "Trading and investment income, net" heading in the consolidated statements of income.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The interest and indexation for inflation are recognized in "Trading and investment income, net" line in the consolidated statements of income.

All the purchases and sales of trading investments that must be delivered within the period established by the market's regulations or conventions are recognized at the trade date, on which the purchase or sale of the asset is agreed. Any other purchase or sale is recognized on its settlement date.

n) Transactions with repurchase agreements and securities lending

Reverse repurchase agreement is an agreement to receive a financial asset from another party in exchange for cash or other consideration and a concurrent obligation to resell the financial assets at a future date for an amount equal to the cash or other consideration exchanged plus interest. These agreements are accounted for as operating transactions. Assets purchased under reverse repurchase agreements are recognized in the consolidated financial statements as "Investments under agreements to resell" and are measured at amortized cost.

Repurchase agreement is an agreement to transfer a financial asset to another party in exchange for cash or other consideration and a concurrent obligation to reacquire the financial assets at a future date for an amount equal to the cash or other consideration exchanged plus interest. These agreements are accounted for as operating transactions. Financial assets sold under repurchase agreements are retained in the consolidated financial statements in "Trading portfolio financial assets" or "Financial investments available for sale" categories, and consideration received under these agreements is recognized as collateralized liability within "Liabilities under agreements to repurchase" line, and measured at amortized cost.

o) Financial derivative instruments

The financial derivative instruments, which include foreign currency and Unidades de Fomento (UF) forwards, interest rate futures, currency and interest rate swaps, currency and interest rate options and other financial derivative instruments are initially recognized in the consolidated statements of financial position at their fair value (including transaction costs), which is usually their acquisition cost, and subsequently measured at their fair value. The fair value is obtained from corresponding market pricings, discounted cash flow models and pricing valuation models. The derivative instruments are recognized as an asset when their fair value is positive and as a liability when they are negative in "Derivative financial assets" or "Derivative financial liabilities" lines of the consolidated statements of financial position.

Certain derivatives embedded in other financial instruments are treated as separate derivatives when their risks and characteristics are not closely related with those of the host contract and when such host contracts are not measured at fair value through profit or loss.

At the moment of subscribing to a derivative agreement, the Bank must designate it either as a derivative instrument for trading or for hedge accounting purposes.
The changes in the fair value of derivative instruments held for trading are included in "Trading and investment income, net" line of the consolidated statements of income.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

If the derivative instrument is classified for hedge accounting purposes, the hedge can be: (1) a fair value hedge of existing assets or liabilities or firm commitments or (2) a cash flow hedge of existing assets or liabilities or forecast transactions. A hedging relationship qualifies for hedge accounting if, and only if, all of the following conditions are met: (a) at the inception of the hedge there is formal designation and documentation of the hedging relationship; (b) the hedge is expected to be highly effective; (c) the effectiveness of the hedge can be reliably measured and; (d) the hedge is assessed on an ongoing basis and determined to have actually been highly effective throughout the financial reporting periods for which the hedge was designated.

Certain transactions with derivatives that do not qualify for being classified as hedging derivatives are treated and recognized as trading derivatives, even when they provide effective economic hedge of the risk positions.

When a derivative hedges the exposure to changes in the fair value of an existing item of the asset or liability, such hedged item is measured at fair value from the designation of the fair value hedge until its expiration, termination, etc. The mark to market adjustments for both the hedged item and the hedging instrument are recognized in the consolidated statements of income.

If the item hedged in a fair value hedge is a firm commitment, the changes in the fair value of the firm commitment regarding the covered risk are recognized as assets or liabilities with effect on the consolidated statements of income for the period. Gains or losses from the changes in fair value measurement of the hedging derivative are recognized with effect on the consolidated statements of income for the period. When a new asset or liability is acquired as a result of the firm commitment, the initial recognition of the acquired asset or liability is adjusted to incorporate the accumulated effect of the fair value valuation of the firm commitment recognized in the consolidated statements of financial position.

When a derivative hedges exposure to changes in the cash flows of existing assets or liabilities, or forecast transactions, the effective portion of changes in fair value related to the hedged risk is recognized in other comprehensive income and accumulated in equity. Any ineffective portion is recognized directly in the consolidated statements of income for the period.

The cumulative loss or gain in cash flow hedge reserve is transferred to the consolidated statements of income to the extent that the hedged item impacts the income because of the hedged risk, offsetting the effect in the same line of the consolidated statements of income.

In case of fair value hedge of interest rate risk of a portfolio with the hedged item representing currency value instead of individual assets or liabilities, gains or losses from the fair value measurement for both the hedged item and the hedging instrument, are recognized in the consolidated statements of income, but the fair value adjustment of the hedged instrument is presented in the consolidated statements of financial position under the “Other assets” or “Other liabilities” lines, depending on the hedged item position as of reporting date.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The adjustment for counterparty credit risk in derivatives (Credit Valuation Adjustment "CVA") determines the expected losses from counterparty risk in over the counter ("OTC") derivatives contracts. The CVA of a derivative is defined as the difference between the value of free derivative counterparty risk (equivalent to the original derivative but without the risk of default of either party) and the value of the derivative considering the possibility of counterparty default. In this way, a customer CVA can be obtained from the expected exposure (EE) to counterparty risk and the expected loss rate ("PE" for its acronym in Spanish) associated with the potential default of the counterparty.

The valuation adjustment for the existence of the spread bid/ask on financial instruments (which applies to all financial instruments recognized at market value, both in normal market conditions and financial stress conditions), is based on best practices, the recommendations of the Basel Committee and the requirements of the SBIF and the Central Bank of Chile.

In order to make the bid/ask adjustment to financial instruments of Banco de Credito e Inversiones portfolios, the following methodology was established:

i. Define market makers or BCI customer condition:

On an annual basis the Bank condition will be defined as to whether the Bank is the debtor or the creditor.

ii. Condition of Market Makers:

For products (markets) where BCI is considered the creditor, the instrument shall be valued at mid-price and bid/ask adjustment will not be applied.

iii. Customer status:

For products (markets) where BCI is considered the debtor, the instrument shall be valued at mid-price and adjusted for bid/ask, or, in case of high liquidity, valued at bid price.

p) Hedge of a net investment in a foreign operation

According to IAS 21 and IAS 39, the requirements to recognize hedge accounting are the following: IAS 21 requires that an entity should determine the functional currency of each of its foreign operations as the currency of the primary economic environment in which it operates. When the statement of financial position and results of a foreign operation are translated from a currency different from the reporting currency of the parent, the entity will recognize the exchange differences through other comprehensive income in equity, under Cumulative Translation Adjustment Reserve, until the sale or disposal by other means of the foreign operation. The accumulated difference is to be transferred to the consolidated statements of income at the date at which the sale or disposal occurs.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The hedge of a net investment in a foreign operation seeks to mitigate the foreign exchange rate risk associated with the valuation of the foreign investment.

IAS 39 establishes the following conditions in order to apply hedge accounting:

a) At the inception of the hedge there is formal designation and documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge;
b) The hedge is expected to be highly effective;
c) The effectiveness of the hedge can be reliably measured;
d) The hedge is assessed on an ongoing basis and determined actually to have been highly effective throughout the financial reporting periods for which the hedge was designated.

The hedged item is the initial investment made for the purchase of BCI Financial Group INC. and Subsidiaries.

q) Loans and receivables to customers

Loans receivable are non-derivative financial assets with fixed or determined payments that are not quoted in an active market and which the Bank does not intend to sell immediately or in the short-term.

Loans receivable are initially recognized at their fair value plus direct transaction costs and subsequently measured at their amortized cost using the effective interest method.

i. Financial lease contracts

Accounts receivable from lease contracts, included under "Loans and receivables to customers" heading, correspond to the sum of periodic instalments of lease contracts that comply with the requirements to be qualified as financial leases and are measured at amortized cost.

ii. Factoring Operations

The Bank and its subsidiary BCI Factoring S.A. perform operations with their clients, in which they receive invoices and other credit representative trading instruments with or without recourse to the transferor, anticipating a percentage of the total amount receivable of the borrower upon collection.

r) Allowances for loan losses and others

The allowances required to cover the expected losses of certain financial assets have been recognized in accordance with the regulations and instructions of the SBIF. The assets are presented net of such allowances, or at a new cost basis in the case of investments. The allowance for credit commitments is presented as liability under "Provisions" heading.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The Bank and subsidiaries uses models and methodologies based on individual and collective analysis of the borrowers, approved by the Board of Directors, to recognize the allowance for loan losses as indicated in the Accounting Standards Compendium issued by the SBIF.

i. Individual assessment:

Individual assessment of borrowers is performed when the customer, due to its size, complexity or exposure, is required to be identified and analysed on an individual basis.

Naturally, the analysis of the borrowers should be focused on their capacity and ability to comply with their credit obligations, evaluated based on sufficient and reliable information. Analysis should consider collateral, terms, interest rates, currency, indexation for inflation related to the loan, etc.

Allowance is assessed based on the classification of the borrowers and their related loans and credit commitments in their corresponding risk category, after being assigned to one of the following portfolio categories: normal, substandard and non-compliant.

ii. Normal and substandard portfolios:

The normal portfolio includes those borrowers, whose payment capacity allows them to comply with their obligations and commitments, and. according to the evaluation of their economic and financial situation, is not expected to change. The classifications assigned to this portfolio are categories A1 to A6.

The substandard portfolio includes the borrowers which have financial difficulties, or whose payment capacity worsened significantly, presenting reasonable doubt regarding the probability of reimbursement of total principal and interest under the contractually agreed terms, indicating that they are less likely to comply with their financial obligations in the short term.

In addition, borrowers that recently held loans in default for over 30 days also form the part of the substandard portfolio. The classifications assigned to this portfolio are categories B1 to B4.

As a result of an individual analysis of these borrowers, the banks must classify them under the following categories, assigning to them, subsequently, the probability percentages of probability of default and loss given default, resulting in the consequent percentage of expected loss:

Type of portfolio	Borrower Category	Probability of Default (PD) (%)	Loss given default (LGD) (%)	Expected Loss (%)
Normal portfolio	A1	0.04	90.0	0.03600
	A2	0.10	82.5	0.08250
	A3	0.25	87.5	0.21875
	A4	2.00	87.5	1.75000
	A5	4.75	90.0	4.27500
	A6	10.00	90.0	9.00000
Substandard portfolio	B1	15.00	92.5	13.87500
	B2	22.00	92.5	20.35000
	B3	33.00	97.5	32.17500
	B4	45.00	97.5	43.87500

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

iii. Collective assessment of normal and substandard portfolios:

In order to determine the amount of allowance to be established for the normal and substandard portfolios, the first step is that the exposure must be estimated, to which the respective loss percentages (expressed in decimals) will be applied. This expected loss percentage is comprised of the probability of default (PD) and loss given default (LGD) established for the category in which the borrower and/or guarantor is classified, as applicable.

The exposure subject to allowances corresponds to the loans and receivables plus loan commitments, less the amount to be recovered by collateral execution. Likewise, loans and receivables are understood as the carrying value of loans and receivables to the respective borrower, while loan commitments are understood as the amount resulting from applying the clause indicated in N°3 of Chapter B-3 of the Accounting Standards Compendium.

iv. Non-compliant portfolio:

Non-compliant portfolio includes the loans to borrowers for which recovery is considered remote, given that they have suffered a loss event resulting in impairment. This portfolio includes borrowers with evident signs of possible bankruptcy, as well as those in which a forced debt renegotiation is required, and also includes any borrower with loans in default for equal to or greater than 90 days in the payment of interest or principal of any loan. This portfolio includes borrowers classified under categories C1 to C6 in the classification scale established below and classification is assigned for all a debtor’s portfolio at the classification at the riskiest level, including 100% of the loan commitments that those borrowers maintain.

For the effects of allocating allowances on the non-compliant portfolio, loss rate percentages are used, which must be applied to the exposure, corresponding to the sum of loans and receivables and loan commitments held by the same borrower. In order to apply this percentage, an expected loss rate must be estimated first, deducting from the exposure the amounts expected to be recovered by execution of collateral and. in the case of having solid data that justifies them, deducting also the net present value of expected recoveries that can be obtained by execution of collection actions, net of expenses associated with them. That loss rate must be classified into one of the nine categories defined according to the range of losses effectively expected by the Bank for all the operations of an individual borrower.

These categories and the loss rates which must be applied on the exposures are indicated in the following table:

Type of portfolio	Risk Scale	Expected Loss Range	Loss Rate (%)
Non-Compliant portfolio	C1	Up to 3 %	2
	C2	More than 3% up to 20%	10
	C3	More than 20% up to 30%	25
	C4	More than 30 % up to 50%	40
	C5	More than 50% up to 80%	65
	C6	More than 80%	90

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

v. Collective assessment:

Collective evaluation is focused on the following portfolios: Commercial Loans, Consumer Loans and Mortgage Loans.

For the determination of the collective allowance, loan portfolios with homogeneous features, such as the type of borrower and loan terms, are analysed. Thus, allowances are based on expected losses based on a certain probability of default (PD) and a loss given default (LGD); both parameters are based on historical information and technically substantiated estimates.

Allowances are established by multiplying the exposure of the respective portfolio by the estimated percentages of PD and LGD.

a. Commercial Loans:
This portfolio includes receivables to customers holding commercial loans and/or leasing operations, and which are not assessed individually.

Allowance determination is based on statistical models of expected loss, which estimates the probability of default for each customer (PD) and loss give default (LGD) for each operation. Both parameters are defined in terms of customer behaviour and characteristics of each loan, including delinquencies (internal and/or external), loan/collateral ratio (loan-to-value), non-compliant portfolio, customer seniority and type of product, among others.

b. Consumer Loans:
This portfolio includes receivables from loans granted to natural persons, as well as loans resulting from the use of overdraft credit lines, emergency credit lines, credit cards, and consumer loans granted to this type of customer.

Allowance determination is based on statistical models of expected loss, which estimates the probability of default (PD) and loss given default (LGD) for each customer. Both parameters are defined in terms of customer behaviour, highlighting delinquencies (internal and/or external), indebtedness level, non-compliant portfolio, renegotiations, customer seniority, overdrafts not agreed and protests, among others.

c. Mortgage Loans:
This portfolio includes loans which have the following characteristics: the objective is the financing of the acquisition, extension, repair or construction of housing; the borrower is a physical person who is buying or owns the housing, and the value of the mortgage collateral covers the total amount of loan.

As of December 31, 2015 the allowance determination was based on statistical models of expected loss, which estimated the probability of default for each customer (PD) and loss given default (LGD) for each operation. Both parameters were defined in terms of customer behaviour and characteristics of each loan,

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

including delinquencies (internal and/or external), loan/collateral ratio (loan-to-value), overdue status, credit conditions, and customer behaviour in other products of the Bank, among others.

Beginning January 1, 2016 the Bank adopted the "Standard Method for Provisioning the Residential Mortgage Loan" established by SBIF in its Circular No. 3.573. This circular establishes provisioning factors, representing expected losses over the amount of the loan, applied based on the level of delinquency of each loan, and the loan/collateral ratio (Loan-to-Value or LtV) at the end of each month, as shown in the following table.

Provisioning Factor according to delinquency status and LtV						
LtV (loan-to-value)		**Days in default as of the end of the month**				**More than 90 days overdue**
	Concept	**Current**	**1-29**	**30-59**	**60-89**	
LtV ≤ 40%	PD (%)	1.0916	21.3407	46.0536	75.1614	100.0000
	LGD (%)	0.0225	0.0441	0.0482	0.0482	0.0537
	EL (%)	0.0002	0.0094	0.0222	0.0362	0.0537
40% < LtV ≤ 80%	PD (%)	1.9158	27.4332	52.0824	78.9511	100.0000
	LGD (%)	2.1955	2.8233	2.9192	2.9192	3.0413
	EL (%)	0.0421	0.7745	1.5204	2.3047	3.0413
80% < LtV ≤ 90%	PD (%)	2.5150	27.9300	52.5800	79.6952	100.0000
	LGD (%)	21.5527	21.6600	21.9200	22.1331	22.2310
	EL (%)	0.5421	6.0496	11.5255	17.6390	22.2310
LtV > 90%	PD (%)	2.7400	28.4300	53.0800	80.3677	100.0000
	LGD (%)	27.2000	29.0300	29.5900	30.1558	30.2436
	EL (%)	0.7453	8.2532	15.7064	24.2355	30.2436

Where:
PD = Probability of default
LGD = Loss given default
EL = Expected loss
LtV = Outstanding principal/Value of the collateral

In cases where the same client has more than one mortgage loan outstanding and one of them is past-due 90 days or more, all such loans will be classified as "Non-Compliant" the allowance for each one of them will be calculated in accordance with their respective level of Loan-to-Value.

The application of this new rule resulted in a reclassification between the allowances for residential mortgage loans amounting to MCh$14,028 as of January 1, 2016, and the additional provisions recognized. Accordingly, the application of this new regulation had no effect on the consolidated statements of income for the year ended December 31, 2016.

d. Write-off of loans:
Generally, when contractual rights expire over cash flows, assets have to be written off. In the case of loans, even if this does not happen, respective asset balances are written off in accordance with the requirements established by Title II of Chapter B-2 of the Compendium of Accounting Standards and Instructions issued by the SBIF.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The write-offs in question refer to the write-offs of the assets previously recognized in the consolidated statements of financial position corresponding to the respective transaction, including, therefore, the portion that may be not overdue if a loan is to be repaid in instalments, or in case of a leasing operation.

Write-offs are always recognized against allowances for loan losses, according to Chapter B-1 of the Compendium of Accounting Standards, regardless of the reason. Subsequent repayments of the assets previously written off are recognized in the consolidated statements of income for the year, as recoveries of loans written-off.

Write-offs of loans and receivables are be made in accordance with the following deadlines:

Type of loan	**Write-off period**
Consumer loans secured and unsecured	6 months
Other unsecured operations	24 months
Commercial loans secured	36 months
Mortgage loans	48 months
Consumer leasing	6 months
Other non-property leasing	12 months
Property leasing (commercial or residential)	36 months

Write-off period corresponds to the period between the due date to pay all or part of the obligation (instalment) that is due and the date of the write-off.

e. Recovery of written off loans:

The recoveries of loans that were written-off are recognized directly as income, as recoveries of previously written off loans.

s) Fee and commission income and expense

Fee and commission income and expense are recognized in the consolidated statements of income using different criteria according to their nature. The most significant are:

- Those corresponding to operations which happen at a moment of time are recognized when the operation which originates them has been completed.
- Those originated from transactions or services performed over time are recognized over the life of these transactions or services.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

t) Impairment

I. Financial Assets:

A financial asset is assessed on each reporting date to determine if objective evidence of impairment exists. A financial asset is considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For financial assets recognized at amortized cost, impairment is calculated as the difference between the carrying value of the asset and the net present value of the estimated future cash flows, discounted using the effective interest rate.

An impairment of financial investments available for sale is calculated in relation to their fair value.

Financial assets that are individually significant are individually assessed for impairment. The remaining financial assets are assessed on the collective basis in groups of assets that share similar credit risk characteristics. Impairment is recognized in the consolidated statements of Income for the year. Any impairment of financial investments available for sale previously accumulated as negative revaluation reserve in equity is transferred to the consolidated statements of income for the year.

The previously recognized impairment is reversed only if in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized. For the financial assets measured at amortized cost and debt financial investments available for sale, the reversal of impairment loss is recognized in the consolidated statements of income. In respect of equity financial investments available for sale, impairment losses previously recognized in the consolidated statements of income are not reversed through consolidated statements of income. Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income and accumulated under the heading of investments revaluation reserve.

For loans and receivables to customers the impaired loans are defined according to Chapter B-2 of the Accounting Standards Compendium of the SBIF as “borrower loans on which there is evidence they will not meet any of their obligations under the agreed-upon payment conditions, without the possibility of recovering the loan by repossessing collateral, by means of judicial collection actions or by renegotiation”.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Impairment policies indicate that impairment is measured monthly, and consider the following criteria:

i. Impaired Portfolio:

Impaired Portfolio includes loans individually assessed by the Bank which have a credit risk classified as substandard in categories B3 and B4 and loans in the non-compliant portfolio.
The collectively assessed loans are classified as impaired loans when they present at least one of the following conditions:

- Loans in default more than or equal to 90 days.
- Renegotiated loans.
- 100% of the loans associated with the client, when any of its loans is classified as impaired, are reclassified to the impaired portfolio.

Operations related to residential mortgage loans or students loans for higher education under Law No. 20,027 are excluded from the requirements of this classification as long as non-compliance conditions as established in Circular No. 3,454 dated December 10, 2008 are not presented.

The behaviour of the client in the financial system is not considered determinative as to whether the loan should be included in the impaired portfolio.

<u>Exit Conditions</u>

- <u>Individual assessment:</u> improvement in risk rating, movement to B3 and above category of the individual classification.

- <u>Collective assessment:</u>

a) Non-renegotiated loans: loans of the impaired portfolio may be reclassified back to the normal portfolio only upon compliance with the following conditions:
- Receipt of at least nine consecutive instalments of principal and interest, paid on time in accordance with the schedule of payments or with a maximum delay of 30 days.
- All obligations up to date and no other loans in the impaired portfolio.
- In any case, there must be no instalments in default with other banks in the Chilean financial system in the last 90 days (last three periods informed to the SBIF at the date of inquiry).

b) Renegotiated loans: loans of the impaired portfolio may be reclassified back to the normal portfolio only upon compliance with the following conditions:
- Receipt of at least nine consecutive instalments of principal and interest, paid on time in accordance with the schedule of payments or with a maximum delay of 30 days.
- All obligations up to date and no other loan operations of the borrower in the impaired portfolio.
- No other renegotiations of the borrower's loans within the last nine months.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

- In any case, there must not be any instalments in default with other banks in the Chilean financial system in the last 90 days (last three periods informed to the SBIF at the date of inquiry)

c) Collectively renegotiated portfolio written-off: written-off loans that had been renegotiated may be reclassified back to the normal portfolio only upon compliance with the following conditions:
- Payment of 30% of the originally renegotiated balance or payment of the first nine payments agreed for the renegotiated loan.
- Principal and interests payments up to date.
- No other loans of the borrower in the impaired portfolio.
- No instalments in default in the Chilean financial system in the last 90 days.

ii. Interest and indexation for inflation income and expenses:

Income and expenses from interest and indexation for inflation are recognized in the consolidated statements of income for the period based on the accrual principle using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition. When calculating the effective interest rate, the Bank estimates cash flows considering all contractual terms of the financial instrument. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts. Transaction costs are incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

However, in the case of past-due loans or the current loans with high credit risk, a prudent criterion is followed to suspend the accrual of interest and indexation for inflation. Such items are recognized only when they are received.

• Amounts to suspend:

The amount of suspended income on an accrual basis posted to memo accounts corresponds to the amount calculated between the date of suspension and the consolidated statements of financial position reporting date that corresponds to the last day of the month.

• Date of suspension:

Individually assessed loans:

Case a) Loans classified as C5 and C6: the accrual is suspended when the loan is classified as non-compliant.

Case b) Loans classified as C3 and C4: the accrual is suspended when the loan has been classified as non-compliant for more than three months.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Collectively assessed loans:

For the loans with collateral whose fair value is less than 80% of the loan balance, accrual of interest income is suspended when the loan or one of the instalments has not been paid for nine months.

The 80% percent of collateral refers to the ratio, measured at the time the loan becomes impaired, including the value of the collateral and the estimated value of all assets covered by the same collateral, including credit commitments.

II. Non-financial assets:

Non-financial assets of the Bank, including goodwill, intangible assets with an indefinite useful life and assets not yet available for use, and excluding investment property and deferred taxes are evaluated at least annually or more frequently, should circumstances warrant, in order to determine if indicators of impairment exist. If such indicators exist, then the recoverable amount of the asset is calculated.

Impairment of goodwill and intangible assets with indefinite lives is not reversed. Impairment losses of other non-financial assets recognized in previous periods are evaluated to determine if events or circumstances indicate the need in reversal of the impairment loss. A loss from impairment is reversed if a change in the estimate has occurred. When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years.

u) Intangible assets

Software
The software acquired by the Bank is recognized at cost less the accumulated amortization and impairment, if any.

The expenses in software developed internally are recorded as assets when the Bank is capable of proving its intention and ability to complete development, when internal use will generate future economic benefits, and when the cost of completing its development can be reliably measured. The capitalized costs of the software developed internally include all the direct costs attributable to the development of the software, and it is amortized over the course of its useful life. Software developed internally is recorded at cost less the accumulated amortization and losses from impairment.

The subsequent expenditures associated with any software are capitalized only when the Bank may derive future economic benefits from them. The rest of the expenditures are recognized in the consolidated income statement of the period.

Amortization is recorded in the income statement using the straight-line method according to the estimated useful life of the software, starting on the date it is ready for use and it is usually nine years.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Intangibles acquired in a business combination

Intangible assets with finite and indefinite useful lives were recognized as a consequence of the purchase of BCI Financial Group, INC. and Subsidiaries at the acquisition date, in October 2016. These intangible assets were identified in the Purchase Price Allocation (PPA) process.

According to IFRS 3 “Business Combinations”, amounts presented as of December 31, 2015 were determined preliminarily and therefore could be adjusted during a period up to one year from the acquisition date.

Intangible assets with finite useful life are amortized on a straight-line basis over their estimated useful life.

Intangible with indefinite useful life are subject to annual impairment review. In accordance with the SBIF rules, under the Compendium of Accounting Rules. Chapter A2 number 7, two independent appraisers different from the Bank’s auditors performed an impairment test over indefinite life intangible assets. This review was performed December 31, 2017.

Goodwill

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, regardless of whether other assets or liabilities of the acquired entity are assigned to such cash-generating units.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired.

An impairment loss recognised for goodwill is not reversed in subsequent periods.

v) Business Combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree, and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are generally recognized in the consolidated statements of income as incurred.

In a business combination, an independent expert is used to make a determination of fair value of assets acquired and liabilities assumed including intangible assets identified. For the estimation of recovery of these intangibles identified in a business combination, cash flow projections are used based on yield estimates of acquired businesses.

At the acquisition date, the identifiable assets acquired and liabilities assumed are recognized at their fair value, except for the following:

- The deferred tax assets or liabilities. and assets or liabilities related to agreements of employee benefits

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

are recognized and measured in accordance with IAS 12 “Income Taxes” and IAS 19 “Employee Benefits”, respectively;

- Liabilities or equity instruments related to share-based arrangements of the acquiree or share-based company agreements entered into agreements to replace share-based payments of the acquired payment transactions, are measured in accordance with IFRS 2 “Share-based Payment” at acquisition date; and

- Assets (or group of assets for disposal) that are classified as held for sale in accordance with IFRS 5 “Non-current Assets Held for Sale and Discontinued Operations” are measured in accordance with that Standard.

The goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer’s previously held interest in acquiree (if any) over the net amounts (at fair value) of the acquisition-date amount of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer’s previously held interest in the acquiree (if any), the excess is recognized immediately in statements of income as a bargain purchase gain.

Non-controlling interests that are represent ownership interest and entitle their holders to a proportionate share of the entity’s net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interest’s proportionate share of the recognized amounts of the acquiree’s identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis.

The measurement period adjustments are adjustments that arise from additional information obtained during the “measurement period” (which may not exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

w) Property, Plant and Equipment

The items of property, plant and equipment are measured at acquisition cost, net of accumulated depreciation and impairment, if any.

In addition to the price paid to acquire each item, the cost also includes, where applicable, the capitalized cost. The capitalized cost includes expenses attributed directly to the asset acquisition and any other costs directly attributable to the process of placing the asset in conditions to be used.

When some part of an item of the property, plant and equipment has a different useful life to that property, plant and equipment, it is recognized as a separate component (Real Estate Remodelling).

Depreciation is recognized in the consolidated statements of income on the straight-line basis over the useful life of the item or each component of an item of the property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful life, unless it is certain that the Bank will retain the property at the end of the leasing period.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The estimated useful lives for the property, plant and equipment as of December 31, 2017 and 2016 are the following:

	As of December 31, 2017	As of December 31, 2016
Buildings	50 years	50 years
Machinery and equipment	3 - 10 years	3 - 10 years
Facilities	7 - 10 years	7 - 10 years
Furniture and fixtures	7 years	7 years
Computing equipment	3 - 6 years	3 - 6 years
Real estate improvements	10 years	10 years
Other property. plant and equipment	3 - 6 years	3 - 6 years

x) Repossessed assets

Repossessed assets are classified under “Other assets” heading and recognized at the lesser of their adjudicated-in-court value and net realizable value, net of regulatory write-offs required by the SBIF. Repossessed assets are presented net of impairment. Asset not sold within one year from the adjudication date have to be written off.

y) Staff benefits

i. Unused Vacations:

The annual cost of staff vacations and benefits are recognized on accrual basis.

ii. Short-term benefits:

The entity provides for its employees an annual incentive plan for meeting certain objectives. The incentive is defined as a determined number or portion of monthly remunerations. Corresponding provision is recognized on the basis of the estimated amount to be distributed.

iii. Indemnification for years of service:

The Bank and its subsidiaries have no agreements with their employees with respect to indemnification for years of service.

z) Leases

i. Operating lease:

When the Bank or the subsidiaries act as lessee and the contract qualifies as an operating lease, operating lease payments are recognised as an expense on a straight-line basis over the lease term.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Any payment for penalties arising under operating leases are recognised as an expense in the period in which they are incurred.

ii. Financial lease:

Amounts due from lessees under finance leases are recognised as receivables at the amount of the net investment in the leases under the heading "Loans and receivables to customers". Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Inter-company leased assets are treated as own-use assets in the consolidated financial statements.

aa) Cash flow statement

The indirect method was applied for presentation of the consolidated statements of cash flows. In accordance with this method non-cash transactions are excluded. Revenues and expenses associated with cash flows from investing or financing activities are presented in such categories.

The following concepts are applied for the consolidated statements of cash flows:

Cash flows: the inflows and outflows of cash and cash equivalents, which are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value, such as: deposits with the Central Bank of Chile, with domestic and foreign banks.

Operating activities: are the principal revenue-producing activities of the Bank and other activities that are not investing or financing activities.

Investing activities: are the acquisition and disposal of long-term assets and other investments not included in cash equivalents.

Financing activities: are activities that result in changes in size and composition of net equity and borrowings and that do not form part of the operating and investing activities.

ab) Provisions and contingent assets and liabilities

Provisions are liabilities for which there is uncertainty regarding their amount or maturity. Provisions are recognized in the consolidated statements of financial position when they comply with the following requirements:

- It is a present obligation as a result of a past event, and, at the date of the consolidated financial statements
- It is probable that an outflow of economic benefits will be required by the Bank or its subsidiaries to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent liability is:

a. a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
b. a present obligation that arises from past events but is not recognised because:

   - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
   - the amount of the obligation cannot be measured with sufficient reliability.

Provisions (which are measured considering the best available information regarding the consequences of the related event and are reviewed at the end of each reporting period and adjusted to reflect the current best estimate) are used to cover specific obligations for which they were originally recognized which are reversed or utilized upon non-occurrence or occurrence of the event.

Provisions are recognized for the following categories:

- Provisions for staff benefits and remunerations.
- Provisions for minimum dividends.
- Provisions for contingent credit risk.
- Provisions for contingencies (include additional provisions).

i. Additional provisions:

The SBIF has defined that the additional provisions are those not deriving from the application of valuation models to the portfolio in order to compensate deficiencies in them, and that their establishment must be justified by assumed risk as defined in unpredictable economic fluctuations.
The Bank has formal criteria and procedures for the use and constitution for the determination of additional provisions, which must be approved by the Board of Directors.

These provisions, in accordance with the established under No. 10 of Chapter B-1 of the Compendium of Accounting Standards issued by the SBIF, have to be recognized as liabilities.

ii. Minimum provisions required for the normal individual portfolio:

The SBIF has determined that the Bank must maintain a percentage of minimum provision of 0.50% on loans and credit commitments from the normal individual portfolio in accordance with Chapter 2.1.3 of the number B-1 Compendium of Accounting Standards. These minimum provisions are to be presented as liabilities.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

ac) Use of estimates and judgments

In the application of the Bank's accounting policies, Bank management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Modifications to accounting estimates are recognised in the period in which the estimate is revised if the modification affects only that period, or in the period of the modification and future periods if the modification affects both current and future periods.

In particular, the information regarding the most significant areas of uncertainties and critical judgments in the application of accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are described in the following notes:

- Allowances for loan losses (Notes 9,10 y 28).
- Impairment of certain assets (Note 31).
- Valuation of financial instruments (Notes 6, 8 and 11).
- Useful life of property, plant and equipment and intangible assets (Notes 13 and 14).
- Use of tax loss carry-forward (Note 15).
- Contingencies and Commitments (Note 22).

ad) Income tax and deferred tax

The Bank calculates first category income tax at each period end, according to the current tax law.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The effects of changes in the tax regulations or in tax rates are recognized in deferred taxes as of the date of the law enactment.

As of December 31, 2017 and 2016, the Bank recognized net deferred tax assets, for which Management has assessed that it is probable that taxable profits will be available against which tax loss carryforwards can be utilised.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

ae) Non-current assets held for sale

Non-current assets (or an identifiable group that comprises assets and liabilities) whose carrying amount is expected to be recovered principally through sale transactions, rather than through continuing use, are classified as non-current assets and disposal groups held for sale. Immediately before this classification, the assets (or elements of an identifiable group) are re-measured according to the accounting policies of the Bank. From this moment, the assets (or identifiable group) are measured at the lower of their previous carrying amount and fair value less cost to sell.

af) Dividends on common shares

Dividends on common shares must be approved by the Board of Directors.

The Bank recognizes a liability for the portion of the period profit that must be distributed among the shareholders in compliance with Corporate Law, establishing that the minimum of 30% of net income for the period, or more, must be distributed as dividend, or according to the dividends policy.

ag) Earnings per share

Basic earnings per share are determined by dividing the consolidated net income for the period attributable to the Bank by the weighted average number of shares during that period.

Diluted earnings per share is calculated similarly to basic earnings, but the weighted average number of shares outstanding is adjusted to take into account the potential dilutive effect of stock options, warrants and convertible debt.

ah) Collection operations and Protected Assets No. 27 formed by the direct subsidiary BCI Securitizadora S.A.

i. Collection Operations:

The securitization companies may acquire assets in order to form a separate equity (“Protected Assets Fund”) that support the issuance of securitized bonds. These assets must be similar in nature. A separate equity has to be formed for each separate issuance.

These assets may represent future cash flows (a “business plan” or future cash flows to be obtained from a specific asset or group of assets or entity) or existing asset (a portfolio of receivables, mortgage loans, etc.).

Accounting of debt to be issued depends on the type of assets: debt secured by assets representing future cash flows has be recognized by both the Protected Assets Fund and the originator, while debt secured by existing assets has to be recognized only by the Protected Assets Fund.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

These collection operations form part of the securitization process. In fact, the Securities Market Law itself, foreseeing the practical difficulty of forming a Protected Assets Fund, contemplates the possibility of acquiring assets that form a Protected Assets Fund equity even before the placement of the respective bonds.

Since there is a possibility that the respective Protected Assets Fund never will be created or securitized bond will not be issued for any reason (legal, market, etc.), these transactions contemplate a put option to resell account receivables back to the customer under certain circumstances (mainly in case when an entity cannot issue securitized bonds for the reasons discussed above). This option has to be recognized as a contingent liability by the customer.

ii. Protected Assets Fund No. 27:

The Bank through the direct subsidiary BCI Securitizadora S.A., as of December 31, 2017, maintains in its consolidated financial statements a balance of MCh$25,075, corresponding to loan receivables forming equity of the Protected Assets Fund No. 27. In order to create the latter, BCI Securitizadora S.A. acquired a loan portfolio originated by Inversiones S.C.G. S.A. On November 7, 2011 La Polar Companies filed a preventive legal agreement to the Board of Creditors. This agreement in its part related to Protected Assets Fund No. 27 and mentions the conditions agreed with BCI Securitizadora S.A. on July 28, 2011. In accordance with these conditions, confirmed by Inversiones S.C.G. S.A. the collection process of the assets of Protected Assets Fund No. 27 was established as follows:

- Cash payment on acquisition of portfolio: MCh$23,820.
- Schedule of portfolio repayments, starting the sixth year (2018), as follows:

  Years 2018, 2019 and 2020: 5% of portfolio twice a year.
  Years 2021 and 2022: 7.5% of portfolio twice a year.
  Years 2023 and 2024: 10% of portfolio twice a year.

- Commissions recognized on October 16, 2012, for compliance with the precedent agreement condition: MCh$1,255.

Partial portfolio repayment will be made every 6 months in accordance with the percentages indicated above, on January 31 and July 31 of the respective year, corresponding to the first day on January 31, 2018 and so on the following, to the last on July 31, 2024.

Commissions: commissions to be accrued corresponded to 4% of the portfolio per year between July 1, 2012 and until fulfilment of the precedent condition. These commissions will be capitalized from the date of capitalization subject to interest at BCP 10 rate (in pesos for 10 years) in force on the previous day to the date of compliance with the precedent condition plus 1% per annum. This interest rate to be used throughout the course of the operation, and to be paid semi-annually starting from July 31, 2013. Interest paid for the years ended December 31, 2017 totalled MCh$680 (MCh$680 for the year ended December 31, 2016).

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

On October 25, 2012, external auditors of La Polar companies issued its management report on implementation of agreed procedures. This report confirms that on October 16, 2012 the funds raised from the capital increase exceed MCh$120,000. This fact, in compliance with the suspensive condition agreed in the legal agreement to the Board of Creditors, provoked establishment of new conditions for debt payment and change of agreement structures starting from October 16, 2012. Thus the balance of account receivables to Inversiones S.C.G. S.A. as of December, 2017 amounted to MCh$25,755.

As of December 31, 2017 the Bank recognizes and presents this account receivable related to Protected Assets Fund No. 27 in the category “Loans and receivables to customers”.

ai) Accounting pronouncements by the International Accounting Standards Board (IASB).

Application of new and revised International Financial Reporting Standards (IFRS).

a) New and revised IFRS effective in the current year

The following new and revised IFRS have been adopted in these financial statements:

Amendments to IFRS	Effective date
Disclosure initiative (Amendments to IAS 7)	Annual periods beginning on or after January 1, 2017.
Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12)	Annual periods beginning on or after January 1, 2017.
Annual 2014-2016 cycle improvements (Amendments to IFRS 12)	Annual periods beginning on or after January 1, 2017.

Disclosure Initiative (Amendments to IAS 7)

The amendments are part of the IASB´s Disclosure initiative project and introduce additional disclosure requirements intended to address investors´ concerns that financial statements do not currently enable them to understand the entity´s cash flows; particularly in respect of the management of financing activities. The amendments require disclosure of information enabling users of financial statements to evaluate changes in liabilities arising from financial activities. Although there is no specific format required to comply with the new requirements, the amendments include illustrative examples to show how an entity can meet the objective of these amendments.

The adoption of these amendments did not have an impact in the consolidated financial statements of the Bank and its subsidiaries.

Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12)

On January 19, 2016, the IASB published final amendments to IAS 12 “Income Taxes.”

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The amendments clarify the following aspects:

- Unrealized losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use.

- The carrying amount of an asset does not limit the estimation of probable future taxable profits.

- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.

- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilization of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type.

The adoption of these amendment did not have an impact in the consolidated financial statements of the Bank and its subsidiaries.

Annual 2014-2016 cycle improvements (Amendments to IFRS 12)

On December 8, 2016, the IASB published "Annual 2014-2016 cycle improvements to IFRS". This pronouncement includes amendments to three IFRS as a result of the IASB's annual improvements project, for which the amendments to IFRS 12 are effective for annual periods beginning on or after January 1, 2017.

The amendments to IFRS 12 clarify the scope of the standard to establish that an entity is not required to provide summarized financial information for subsidiaries, associates or joint business that are classified as held for sale (or included in a group of assets held for sale), held for distribution or as discontinued operations in accordance with IFRS 5.

IFRS 12 amendments are applied retrospectively.

The adoption of these amendments did not have an impact in the consolidated financial statements of the Bank and its subsidiaries.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

b) New and revised IFRS issued but not yet effective:

New Standards	**Effective date**
IFRS 9 *Financial Instruments*	Annual periods beginning on or after January 1, 2018.
IFRS 15 *Revenue from Contracts with Customers*	Annual periods beginning on or after January 1, 2018.
IFRS 16 *Leases*	Annual periods beginning on or after January 1, 2019.
IFRS 17 *Insurance contracts*	Annual periods beginning on or after January 1, 2021
Amendments to the Standards	**Effective date**
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)	Effective date deferred indefinitely
Clarifications to IFRS 15 “Revenue from Contracts with Customers”	Annual periods beginning on or after January 1, 2018.
Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2)	Annual periods beginning on or after January 1, 2018.
Applying IFRS 9 “Financial Instruments” with IFRS 4 “Insurance Contracts” (Amendments to IFRS 4)	Overlay approach to be applied when IFRS 9 is first applied. Deferral approach effective for annual periods beginning on or after January 1, 2018 and only available for three years after that date.
Transfers of Investment Property (Amendments to IAS 40)	Annual periods beginning on or after January 1, 2018.
Annual Improvements to IFRS Standards 2014-2016 Cycle (Amendments to IFRS 1 and IAS 28)	Annual periods beginning on or after January 1, 2018.
Prepayment Features with Negative Compensation (Amendments to IFRS 9)	Annual periods beginning on or after January 1, 2019.
Long-Term Interests in Associates and Joint Ventures (Amendments to IAS 28)	Annual periods beginning on or after January 1, 2019.
Annual Improvements to IFRS Standards 2015-2017 Cycle (Amendments to IFRS 13, IFRS 11, IAS 2 and IAS 23)	Annual periods beginning on or after January 1, 2019.
New Interpretations	**Effective date**
IFRIC 22 Foreign Currency Transactions and Advance Consideration	Annual periods beginning on or after January 1, 2018.
IFRIC 23 Uncertainty over Income Tax Treatments	Annual periods beginning on or after January 1, 2019.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

IFRS 9, *Financial Instruments*

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income" (FVTOCI) measurement category for certain simple debt instruments.

The key requirements of IFRS 9 are as follows:

Classification and Measurement: All recognized financial assets that are within the scope of IFRS 9 are required to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost and at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at FVTOCI. All other debt instruments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity instrument (that is not held for trading nor contingent consideration recognized by an acquirer in a business combination) in other comprehensive income, with only dividend income generally recognized in profit or loss.

With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of a financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of such changes in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under IAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.

Impairment*:* In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to record expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk. In other words, it is no longer necessary for a objective evidence of an impairment event to have occurred before credit losses are recognized.

Hedge accounting*:* The new general requirements retain the three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test have been overhauled and replaced with the principle of an "economic relationship". Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted.

The Bank's management, in accordance with instructions of the Superintendency of Banks and Financial Institutions, will not implement the adoption of IFRS 9 standard since the SBIF has expressly ruled that IFRS 9 should not be adopted.

IFRS 15 *Revenue from Contracts with Customers*

On May 28, 2014, the IASB published IFRS 15 *Revenue from Contracts with Customers.* IFRS 15 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 *Revenue,* IAS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer;
Step 2: Identify the performance obligations in the contract;
Step 3: Determine the transaction price;
Step 4: Allocate the transaction price to the performance obligations in the contract;
Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

Under IFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e., when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required.

In April 2016, the IASB issued *Clarifications to IFRS 15* in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

IFRS 15, together with the clarifications thereto issued in April 2016, is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. Entities can choose to apply IFRS 15 retrospectively or to use a modified transition approach, which is to apply IFRS 15 retrospectively only to contracts that are not completed contracts at the date of initial application.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The Bank's Management has assessed the impact of the application of this new standard and concluded that it will have no effect on the consolidated financial statements when the new standard becomes effective. On December 27, 2017, the Bank informed the Superintendency of Banks and Financial Institutions of such conclusion.

IFRS 16 Leases

On January 13, 2016, the IASB published IFRS 16 *Leases*. IFRS 16 introduces a comprehensive model for the identification of lease agreements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current lease guidance including IAS 17 *Leases* and the related interpretations when it becomes effective.

IFRS 16 distinguishes leases and service contracts on the basis of whether the identified asset is controlled by a customer. Distinctions of operating leases (off balance sheet) and finance leases are removed for lessee accounting, and are replaced by a model where a right-of-use and a corresponding liability have to be recognized for all leases by lessees, except for short-term leases and leases of low value assets where such options are undertaken.

For leases originating after the effective date, the right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. Furthermore, the classification of cash flows will also be affected as operating lease payments under IAS 17 are presented as operating cash flows; whereas under the IFRS 16 model, the lease payments will be split into a principal and an interest portion which will be presented as financing and operating cash flows, respectively.

In contrast to lessee accounting, IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by IFRS 16.

IFRS 16 is effective for annual periods beginning on or after January 1, 2019 with earlier application permitted for entities that apply IFRS 15 at or before the date of initial application of IFRS 16. Entities can apply IFRS 16 either by a full retrospective approach or a modified retrospective approach. If the latter approach is selected, an entity is not required to restate the comparative information and the cumulative effect of initially applying IFRS 16 must be presented as an adjustment to opening retained earnings (or other component of equity as appropriate).

The Bank's Management is assessing the impact of applying IFRS 16, however, it is not practicable to provide a reasonable estimate of the effects that this IFRS will have until management finalizes a detailed review.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

IFRS 17 Insurance contracts

On May 18, 2017 the el IASB issued IFRS 17 "Insurance contracts". This new standard establishes principles for recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 "Insurance Contracts."

The objective is to ensure that entities provide relevant information in a way that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that contracts within the scope of IFRS 17 have on the financial position, financial performance and cash flows of an entity.

IFRS 17 establishes a general model, which is modified for insurance contracts with discretionary participation described as the variable fee approach. An entity may apply a simplified measurement approach (the premium allocation approach) to some insurance contracts. The simplified measurement approach allows an entity to measure the amount relating to remaining service by allocating the premium over the coverage period.

The general model requires the use of actual assumptions to estimate the amount, timing and uncertainty of the future cash flows and will explicitly measure the cost of the uncertainty; takes into account market interest rates and the impact of policyholder's options and guarantees.

Policy sales income is deferred as a liability component segregated at day 1 and aggregated in groups of insurance contracts, which is subsequently systematically reported through profit & loss during the period for which the policyholders are insured after making adjustments arising from changes in the assumptions related to the future coverage.

IFRS 17 is effective for periods beginning on or after January 1, 2021. Earlier application is permitted. An entity shall apply IFRS 17 retrospectively unless impracticable, in which case the entity shall apply the modified retrospective approach or the fair value approach.

Management does not anticipate that this new standard will have an impact on the consolidated financial statements, as neither the Bank nor any of the consolidated entities issue insurance contracts.

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)

On September 11, 2014, the IASB has published "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)". The amendments address a conflict between the requirements of IAS 28 *Investments in Associates and Joint Ventures* and IFRS 10 *Consolidated financial statements* and clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 *Business Combinations*)
- require the partial recognition of gains and losses where the assets do not constitute a business, i.e., a gain or loss is recognized only to the extent of the unrelated investors' interests in that associate or joint venture.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

On December 17, 2015 IASB has published final amendments to "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture". The amendments defer the effective date of the September 2014 amendments to these standards indefinitely until the research project on the equity method has been concluded.

The Bank's Management has assessed the impact of the application of this new standard and concluded that it will have no effect on the consolidated financial statements when the new standard becomes effective. On December 27, 2017, the Bank informed the Superintendency of Banks and Financial Institutions of such conclusion.

Clarifications to IFRS 15 "Revenue from Contracts with Customers"

The amendments are effective for annual periods beginning on or after January 1, 2018. Early application is permitted. The amendments are to be applied prospectively. However, retrospective application if allowed, if this is possible without the use of hindsight. If an entity applies the amendments retrospectively, it must do so for all the modifications described above.

The Bank's Management has assessed the impact of the application of this clarification and concluded that it will have no effect on the consolidated financial statements when the new standard becomes effective. On December 27, 2017, the Bank informed the Superintendency of Banks and Financial Institutions of such conclusion.

Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2)

On June 20, 2016, the IASB has published final amendments to IFRS 2 "Share-based Payment" that clarify the classification and measurement of share-based payment transactions. The amendments address several requests that the IASB and the IFRS Interpretations Committee received and that the IASB decided to deal with in one combined narrow-scope project.

The amendments are effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. The amendments are to be applied prospectively. However, retrospective application if allowed if this is possible without the use of hindsight. If an entity applies the amendments retrospectively, it must do so for all of the amendments described above.

Management does not anticipate that the application of these amendments will have any effect on the consolidated financial statements of the Bank.

Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts' (Amendments to IFRS 4)

On September 12, 2016, the IASB has published 'Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts". The amendments are intended to address concerns about the different effective dates of IFRS 9 and the forthcoming new insurance contracts standard. As it has become obvious that the effective date of IFRS 17 can no longer be aligned with the effective date of IFRS 9 Financial Instruments there have been calls for the IASB to delay application of IFRS 9 for insurance activities and align the effective date of IFRS 9 for those activities with the effective date of the new insurance contracts standard.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The amendments in Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts' (Amendments to IFRS 4) provide two options for entities that issue insurance contracts within the scope of IFRS 4:

- an option that permits entities to reclassify, from profit or loss to other comprehensive income, some of the income or expenses arising from designated financial assets; this is the so-called overlay approach;
- an optional temporary exemption from applying IFRS 9 for entities whose predominant activity is issuing contracts within the scope of IFRS 4; this is the so-called deferral approach.

The application of both approaches is optional and an entity is permitted to stop applying them before the new insurance contracts standard is applied.

An entity applies the overlay approach retrospectively to qualifying financial assets when it first applies IFRS 9. Application of the overlay approach requires disclosure of sufficient information to enable users of financial statements to understand how the amount reclassified in the reporting period is calculated and the effect of that reclassification on the financial statements.

An entity applies the deferral approach for annual periods beginning on or after January 1, 2018. Predominance is assessed at the reporting entity level at the annual reporting date that immediately precedes 1 April 2016. Application of the deferral approach needs to be disclosed together with information that enables users of financial statements to understand how the insurer qualified for the temporary exemption and to compare insurers applying the temporary exemption with entities applying IFRS 9. The deferral can only be made use of for the three years following January 1, 2018. Predominance is only reassessed if there is a change in the entity's activities.

Management does not anticipate that the application of these amendments will have any effect on the consolidated financial statements of the Bank.

Transfers of Investment Property (Amendments to IAS 40)

On December 8, 2016, the IASB has issued "Transfers of Investment Property (Amendments to IAS 40)" to clarify transfers of property to, or from, investment property.
The amendments to IAS 40 *Investment Property*:

- Amends paragraph 57 to state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use.
- The list of examples of evidence in paragraph 57(a) – (d) is now presented as a non-exhaustive list of examples instead of the previous exhaustive list.

The amendments are effective for periods beginning on or after January 1, 2018. Earlier application is permitted.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Management does not anticipate that the application of this Interpretation will have any effect on the consolidated financial statements of Bank.

Annual Improvements to IFRS Standards 2014-2016 Cycle

On December 8, 2016, the IASB issued "Annual Improvements to IFRS Standards 2014–2016 Cycle". The pronouncement contains amendments to three IFRSs as result of the IASB's annual improvements project.

IFRS	**Subject of amendment**
IFRS 1 *First-time Adoption of International Financial Reporting Standards*	*Deleted the short-term exemptions in paragraphs E3–E7 of IFRS 1, because they have now served their intended purpose.*
IFRS 12 *Disclosure of Interests in Other Entities*	*Clarified the scope of the standard by specifying that the disclosure requirements in the standard, except for those in paragraphs B10–B16, apply to an entity's interests listed in paragraph 5 that are classified as held for sale, as held for distribution or as discontinued operations in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.*
IAS 28 *Investments in Associates and Joint Ventures*	*Clarified that the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is a venture capital organization, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.*

The amendments to IFRS 1 and IAS 28 are effective for annual periods beginning on or after January 1, 2018, the amendment to IFRS 12 for annual periods beginning on or after January 1, 2017.

Management does not anticipate that the application of these amendments will have any effect on the consolidated financial statements of the Bank.

Prepayment features with negative compensation (Amendments to IFRS 9)

On October 12, 2017, the IASB published "Prepayment Features with Negative Compensation (Amendments to IFRS 9)" to address the concerns about how IFRS 9 classifies particular prepayable financial assets, and has amended the existing requirements in IFRS 9 regarding termination rights in order to allow measurement at amortized cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments.

The amendments are to be applied retrospectively for fiscal years beginning on or after 1 January 2019. Early application is permitted so entities can apply the amendments together with IFRS 9.

The Bank's management believes that future application of these amendments will have no effect on the Bank's

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

consolidated financial statements.

Long-term interests in Associates and Joint Ventures (Amendments to IAS 28)

On October 12, 2017, the IASB published published 'Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28)' to clarify that an entity applies IFRS 9 'Financial Instruments' to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.

The Bank's management believes that future application of these amendments will have no effect on the Bank's consolidated financial statements.

Annual Improvements to IFRS Standards 2015-2071 Cycle

On December 12, 2017, the IASB issued "Annual Improvements to IFRS Standards 2015-2017 Cycle". The annual improvements makes amendments to the following standards:

- **IFRS 3** and **IFRS 11** – The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interest in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.
- **IAS 12** – The amendments clarify that all income tax consequences of dividends (i.e. distribution of profits) should be recognized in profit or loss, regardless of how the tax arises.
- **IAS 23** – The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrow *generally* when calculating the capitalization rate on general borrowings.

The amendments to IFRS 3 and IFRS 11, IAS 12, and IAS 23 are all effective for annual periods beginning on or after January 1, 2019.

The Bank's management believes that the future application of these amendments will have no effect on the Bank's consolidated financial statements

IFRIC 22 Foreign Currency Transactions and Advance Consideration

On December 8, 2016 the IASB issued IFRIC 22 "Foreign Currency Transactions and Advance Consideration". IFRIC 22 addresses how to determine the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration in a foreign currency.

The Interpretation standard establishes that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

or receipt of advance consideration. If there are multiple payments or receipts in advance, the Interpretation establishes that the entity shall determine a date of the transaction for each payment or receipt of advance consideration.

IFRIC 22 is effective for annual reporting periods beginning on or after January 1, 2018. Earlier application is permitted. On initial application, the entity has the option to apply this Interpretation either retrospectively or prospectively to all assets, expenses and income in the scope of the Interpretation initially recognised.

Management does not anticipate that the application of this Interpretation will have any effect on the consolidated financial statements of the Bank.

IFRIC 23 Uncertainty over Income Tax Treatments

On June 7, 2017 the IASB issued IFRIC 23 "Uncertainty over Income Tax Treatments". This Interpretation clarifies how to apply the recognition and measurement requirements in IAS 12 when there is uncertainty over income tax treatments.

IFRIC 23 requires an entity to:

(i) Determine whether uncertain tax positions are assessed separately or as a group; and

(ii) Assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings:

   a. If yes, the entity should determine its accounting tax position consistently with the tax treatment used or planned to be used in its income tax filings.
   b. If No. the entity should reflect the effect of uncertainty in determining its accounting tax position.

IFRIC 23 is effective for annual reporting periods beginning on or after January 1, 2019. On initial application, the entity has the option to apply this Interpretation either totally retrospectively or retrospectively with no reexpression of comparative information.

Management does not anticipate that future application of this Interpretationwill have not have a significant effect on the consolidated financial statements of the Bank.

aj) Standards and instructions issued by the Superintendency of Banks and Financial Institutions (SBIF)

i) Circular No. 3,615 issued on December 12, 2016, is intended to increase the level of transparency for the financial information provided by the banks, for that reason, the SBIF issued instructions that Financial Statements of Banks as of June 30 of each year will be required as of 2017 to include a review report on financial information issued by external auditors in accordance with GAAS No. 63, Section AU 930, or its international equivalent, SAS No. 122, Section AU-C 930, which must be submitted to the SBIF on the same date of publishing it, or the immediately preceding or next banking day.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

ii) Circular No. 3,621, the SBIF issued on March 15, 2017 a Circular related to Chapters B1 and C3 of the Compendium of Accounting Standards. It supplements instructions for the accounting and determination of provisions for credits guaranteed by the school infrastructure Guarantee Fund, established in Law No. 20,845.

iii) Circular Letter No. 1/2017 of the Information System Manual, the SBIF on March 15, 2017 supplemented information for regulatory files in order to increase the information on the School Infrastructure Guarantee Fund of Law No. 20,845.

iv) Circular Letter No. 2/2017, dated March 30, 2017, instructed Banks to submit information to the SBIF on the shares held in their own name on behalf of third parties.

v) Circular No. 3,622, the SBIF informed, on June 21, 2017, that El Tabo was incorporated as a Banking Plaza.

vi) Circular No. 3,623, the SBIF informed, on June 28, 2017, that the Banking Institution using code number 054 was approved for removal. Consequently, the list of banks included in Chapter 6-1 of the Updated Compilation of Standards was updated.

vii) Circular No. 3,624, the SBIF informed, on July 25, 2017, that Hijuelas was incorporated as a Banking Plaza.

viii) Circular No. 3,625, the SBIF informed, on September 5, 2017, that Tongoy, Cholchol, Curarrehue and Cisnes were incorporated as Banking Plazas.

ix) Circular Letter No. 3/2017, the SBIF informed, on October 2, 2017, the scope and terms for the application of rounding cash payments.

x) Circular No. 3,626, dated October 13, 2017, the SBIF updated Appendix 1 of Chapter 5-1 of the Updated Compilation of Standards by supplementing the list of banking plazas.

xi) Circular Letter No. 4/2017, dated November 3, 2017, the SBIF issued a series of definitions related to financial education with the purpose of promoting them and setting guidelines in this regard.

xii) Circular No. 3,627, dated November 28, 2017, the SBIF updated Chapters 1-7 and 11-6 of the Updated Compilation of Standards in relation to electronic transfers of information and funds and with investments in companies in the country.

xiii) Circular No. 3,628, dated November 28, 2017, the SBIF updated the regulations regarding the issuance of payment cards by implementing the new Chapter 8-41 of the Updated Compilation of Standards.

xiv) Circular N ° 3,629, dated December 27, 2017, the SBIF supplemented instructions regarding the outsourcing of services and contracting of services in the cloud by updating Chapter 20-7 of the Updated Compilation of Standards.

NOTE 1 - GENERAL INFORMATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

xv) Circular N ° 3,630, dated December 27, 2017, the SBIF reported the application of re-adjustments to credits acquired from the National Association of Savings and Loans by updating Chapter 7-1 of the Updated Compilation of Standards.

The Bank's Management has implemented the previous amended regulations which have not had an effect on its consolidated financial statements as of December 31, 2017.

ak) Reclassifications

Cetain reclassifications were made to the balances presented as of December 31, 2016 in order to correct their presentation. The reclassifications did not affect equity or net income for year 2016. Among these reclassifications it is included the presentation of current taxes and deferred taxes in accordance with IAS 12 as instructed by the Superintendency of Banks and Financial Institutions in accordance with Letter to Management No. 21 that was made to the financial statements for the year ended December 31, 2017.

NOTE 2 - ACCOUNTING CHANGES

During the period ended December 31, 2017, no accounting changes compared with the previous year affecting these consolidated financial statements have occurred.

NOTE 3 - SIGNIFICANT EVENTS

a) Acquisitions

- Merger agreement between City National Bank and TotalBank

On November 28, 2017, the Board of Directors of CNB unanimously approved to authorize the signing of the "Merger Agreement" between City National Bank ("CNB"), Subsidiary of the Bank, incorporated and in force under the laws of the State of Florida in the United States of America and TotalBank, a state bank incorporated and in force under the laws of the State of Florida in the United States of America, which is a subsidiary of Banco Popular Español S.A. (a subsidiary of Banco Santander S.A. in Spain).

By virtue of the Transaction, CNB will acquire, for a total of US$528,075,000, all of the shares issued by TotalBank, becoming CNB the absorbing and continuing legal entity of said bank. As usual in this type of transaction, the price payable to the Banco Popular Español S.A. is subject to possible minor adjustments between the date of signing and the closing date of the transaction.

The merger agreement contemplates, among other usual terms and conditions in transactions of this nature, that the closing of the transaction is subject to obtaining the regulatory authorizations from the competent authorities in Chile, Spain and the US.

TotalBank is a leading integral retail and commercial bank in the State of Florida, which as of September 30, 2017 presents total assets of US$ 3,042 million, loans of US$ 2,170 million and deposits of US$ 2,181 million, as well as 18 branches conveniently located in all of Miami-Dade County. Headquartered in Miami, it has served the South Florida State for more than 40 years, offering a wide range of financial services both locally and internationally to corporations, small businesses and individuals.

NOTE 3 - SIGNIFICANT EVENTS, CONTINUED

This transaction will be financed in part with the Bank's own resources and those of its CNB subsidiary, and in part through a capital increase in such a way as to maintain current capital ratios essentially.

According to a first estimate, the closing of this transaction could take place within the second semester of 2018.

- Contract of sale between Walmart Chile S.A. and Banco de Crédito e Inversiones S.A.

In an extraordinary session of the Board of Directors held on December 12, 2017, the agreement between Walmart Chile S.A. and Inversiones y Rentas Presto Limitada, as sellers and Banco de Credito e Inversiones and BCI Corredor de Bolsa S.A., as buyers, was approved by unanimity of the directors referring to the sale and purchase of shares and partnership shares of one hundred percent of the shares and rights of the companies that are indicated below:

i) Lider Corredora de Seguros & Gestión Financiera Limitada.
ii) Operadora de Tarjetas Líder Servicios Financieros Limitada.
iii) Servicios y Administración de Créditos Comerciales Lider S.A.
iv) Sociedad de Servicios de Comercialización y Apoyo Financiero y de Gestión Presto Limitada.
v) Servicios y Cobranza Limitada.

This transaction involves a total price of MCh$ 92,014, based on the financial statements of June 2017 and that will be adjusted according to the accounting information at the close of the transaction, which is still in process.

As of September 30, 2017, the aforementioned companies recorded gross loans of MCh$ 516,013.

The sale and purchase of shares and the transfer of partnership share, as well as other contracts that were entered into or agreed between the same parties, including a commercial cooperation agreement for the development of financial retail, are subject to obtain the corresponding authorizations of the National Economic Prosecutor's Office and of the Superintendency of Banks and Financial Institutions.

It is estimated that the transaction could be closed during the second half of 2018.

NOTE 3 - SIGNIFICANT EVENTS, CONTINUED

b) Tax reform approved in the Congress of the United States of America

In an extraordinary session of the Board of Directors held on December 26, 2017, it was learned that, in accordance with the tax reform approved in the Congress of the United States of America, which became effective as of January 1, 2018, - among other aspects- a decrease from 35% to 21% in the income tax rate was approved.

This law would have a favorable long-term effect on our results, given the consolidated importance of our subsidiaries and branches in the United States of America. As of September 2017, City National Bank of Florida and BCI Miami Branch represented 23.2% of our assets, and we estimate that if the pertinent approvals are obtained for the perfection of the acquisition agreement of TotalBank, the assets abroad would be at levels of 27.4%.

In accordance with the US GAAP and IFRS accounting standards and regulations and instructions of the Superintendency of Banks and Financial Institutions, the aforementioned income tax rate change was immediately reflected in the financial statements of the subsidiaries and the branch with operations in the United States of America.

The aforementioned tax reform has the following effects:

a) A negative effect on results of US $ 40 million in the financial statements of 2017, originated by the recalculation of the deferred tax asset based on the new rate of 21%.
b) Higher net income from the January 1, 2018 in the United States of America, as a result of lower tax payments.

c) Issuance and bonds placements

As of December 31, 2017 no subordinated bonds have been placed.

As of December 31, 2017, the following bonds denominated in UF were issued:

Bonds Series	Issuance Date	Notional amount UF	Nominal Interest rate	Maturity Date

NOTE 3 - SIGNIFICANT EVENTS, CONTINUED

d) Distribution of dividends and earnings capitalization

At the Annual Shareholder's Meeting held on March 28, 2017, the distribution of net income for the year ended December 31, 2016 was approved, for a total amount of MCh$340,165, according to the following detail:

- Distribution of a dividend of Ch$1,000 per share among the total 123,564,219 shares issued and registered in the Register of Shareholders, which amounts to MCh$123,565.

- Allocation of the remaining balance of the income for the year to capital, for MCh$ 216,600.

According to the approved distribution, the Bank's equity amounts to MCh$2,527,140 divided into 124,944,872 shares of a unique series and without nominal value, which are subscribed and paid in.

During the meeting held in May 2017, the Board of Directors called an Extraordinary Shareholders' Meeting to be held on June 29, 2017 in order to revert the capital increase decision approved by the Extraordinary Shareholders' Meeting held on March 28, 2017.

At the Extraordinary Shareholders' Meeting held on June 29, 2017, the following agreements were reached:

- Recognize the lesser value obtained in the placement of the shares corresponding to the capital increase approved on October 27, 2015, as a decrease in the capital to be paid, in the amount of MCh$33,720. As a result, the new amount in capital is MCh$2,276,820. Subsequently, an increase to Bank's capital by MCh $216,600 took place, according to the following detail:

    - Capitalization of a portion of retained earnings, through the issuance of 1,380,653 shares issued without payment, with no par value, for an amount of MCh$46,518.

    - Capitalization of a portion of retained earnings to Capital for an amount of MCh$ 170,082, with no shares issuance.

As a result of these capitalizations, the registered capital amounts to MCh$2,493,420, divided into 124,944,872 shares of a single series and with no par value.

On July 27, 2017, the Superintendency of Banks and Financial Institutions was requested to approve the final capital increase, which was authorized under resolution No. 479 dated September 13, 2017. On October 20, 2017, the Superintendency of Banks and Financial Institutions authorized the issuance of the shares.

NOTE 3 - SIGNIFICANT EVENTS, CONTINUED

The consolidated financial statements as of December 31, 2017, included the capital increase that was agreed to at the shareholders' meeting held on March 28 and subsequently affirmed on June 29, 2017.

e) Discontinuance of the equity method for the investment in associates, due to changes in the circumstances

As of December 31, 2016, the Bank held an investment equivalent to 1.93% ownership interest in Credicorp LTD., which was recogzined in accordance with the equity method. The recognition of this investment under the equity method is based on the fact that the Bank had a director at Credicorp LTD. at the end of 2016, therefore, exercised significant influence given its power to participate in the financial and operating policy decisions.

On January 25, 2017, the Bank no longer has a director in this company, thereby losing its significant influence. In accordance with paragraph 22 of IAS 28, the Bank must discontinue the use of the equity method, and measure the retained interest at fair value thus recognizing a gain of MCh$ 87,060 for the difference between the fair value of the retained interest and the carrying amount of the investment at the date the equity method was discontinued.

Additionally, in accordance with paragraph 23 of IAS 28, the Bank reclassified to income for the period the cumulative translation adjustment relating to the foreign operation previously recorded in other comprehensive income for Ch$14,846 million.

Finally, a deferred tax liability for $38,612 million was recognized, determined as the difference between the new carrying amount of the investment (fair value at the date of the discontinuance of the equity method) and the taxable base.

In accordance with the Compendium of Accounting Standards issued by the SBIF, Chapter C-3, once the adjustments indicated in the previous paragraphs have been made, this investment should be classified as a "Investment in other companies" and measured at historical cost, corresponding to the fair value at the time of discontinuing the equity method. From that moment, the Bank should recognize income from this investment only for the dividends that are received. Additionally, this investment should be subject to impairment tests, in accordance with paragraph 38 of IAS 36, "the value of an asset deteriorates when its book value exceeds its recoverable amount", that is, impairment is understood to be when the recoverable value is less than the book value of the asset.

NOTE 3 - SIGNIFICANT EVENTS, CONTINUED

f) Shares exchange related to BCI Corredor de Bolsa S.A. (subsidiary)

On June 12, 2017, BCI Corredor de Bolsa S,A received 1,000,000 shares in exchange for the share held by this entity which represents its investment in Bolsa de Comercio de Santiago S.A., Bolsa de Valores (Santiago Stock Exchange S.A., hereinafter referred to as “Stock Exchange”). This share exchange corresponds to the process of demutualization of the Stock Exchange, which was agreed through a modification to the bylaws of this company approved by the shareholders' in a meeting held on March 17, 2016 and supplemented by public document dated January 30, 2017. The effects arising from this amendment to the bylaws took place as of April 21, 2017 and the exchange process was made through the issuance of shares with no payment. This amendment to the bylaws was effective as of April 21, 2017 and the exchange process was made with the issuance of stock dividends. Another of the amendments to the bylaws of the Stock Exchange considers that it will no longer be necessary to be a shareholder of the Exchange in order to operate in said stock market.

The company chose to value the shares it holds on the Santiago Stock Exchange and the Chilean Electronic Stock Exchange at their fair value, reflecting the changes in the fair value in "Other comprehensive income". These shares are valued according to their last transaction price at July 8, 2016 in the Santiago Stock Exchange and July 20, 2016 in the Chilean Electronic Stock Exchange.

NOTE 4 - INFORMATION BY SEGMENTS

Segment structure

In accordance with IFRS 8, the Bank has aggregated operating segments with similar economic characteristics based on the aggregation criteria specified in the standard. Thus, a reporting segment comprises clients to whom differentiated products are addressed, which are homogeneous in terms and whose performance is measured in a similar way, are part of the same reporting segment. Overall, this aggregation has no significant impact on understanding the nature and effects of the business activities of the Bank and the economic environment in which it operates.

Segment reporting is presented by the Bank based on the defined business structure, which is focused on optimizing assistance to clients with products and service, according to relevant commercial characteristics.

NOTE 4 – INFORMATION BY SEGMENTS, CONTINUED

To faithfully reflect the nature of the Bank's reporting segments, the presentation of the note considers the following:

1. The allocation of the results of balance sheet management of the reporting segments is performed according to the composition of assets of each business.
2. A proportion of corporate expenses is allocated to the reporting segments, under the same allocation methodology that is used for other expenses or support staff.
3. Results for recognition or reversal of additional provisions and minimum provision adjustments were allocated to the segments in accordance with the proportion of customers for which these results were tabulated.

Additionally, in order to ensure the focus and, at the same time, capture synergies in the service and service models, in 2016 the organization for the management of customer segments was simplified, grouping sub-segments Banco Retail and Banco Empresarios within Banco Retail, and sub-segments Commercial Bank and Commercial Division of the C&IB, within Banco Wholesale.

Following is the Bank's commercial structure with its four reporting segments:

Retail Banking Segment: This segment includes individuals and entities with sales of less than UF80,000, with the following operating segments:

Retail Banking**:** This operating segment includes individuals. The operating units in this operating segment are: Individuals, Preferential, Nova and Tbanc.

Small and Medium Enterprises**:** This operating segment includes entrepreneurs and enterprising entities (with sales of between UF2,400 and UF80,000) and includes microenterprises (with sales of less than UF2,400).

Wholesale Banking Segment: This segment is composed mainly of companies whose annual sales exceed UF80,000, with the following operating segments:

Commercial Banking: This operating segment includes mainly companies whose annual sales exceed UF80,000. The operating units in this operating segment are: Real Estate and Companies.

Corporate & Investment Banking Commercial Division**:** This operating segment includes large corporations, financial institutions and high net worth investors with financial needs of high value added financial services. The operating units in this operating segment are: Wholesale Banks, Corporate and Private.

Corporate & Investment Banking Finance Division Segment: This segment manages the Bank's own investment portfolio.

BCI Financial Group, Inc. and Subsidiaries (BCIFG) Segment: This segment includes the results of operations of City National Bank of Florida, which operates as an independent unit under the supervision of senior management in Chile.

Others: In "Others" included those expenses and/or income, which by their nature are not directly identifiable within the reportable segments and therefore are not assigned.

NOTE 4 – INFORMATION BY SEGMENTS, CONTINUED

Income from subsidiaries allocation by client:

Certain subsidiaries' revenue and expenses are allocated to the segments to which the Bank customer is assigned.

Balance management results allocation:

In order to allocate in each segment all the benefits and costs associated with services provided to clients, the results of investment management services are allocated to the segments in proportion to total income for assets in each segment less average cost of funding.

Allocation of expenses to reporting segments:

Direct expenses: correspond to the costs directly attributable to each cost centre of each segment which are clearly recognizable and assignable. For example, personnel expenses, materials and inventory, and depreciation.

Indirect expenses (centralized allocation of expenses): expenses recognized in general cost centres, according to Bank policy, are allocated to different segments.

Management support expenses: these expenses are allocated depending on the time and resources consumed by different segments, based on the need. These expenses are preliminarily defined and agreed to by the areas involved (user and support area).

These criteria have been applied for the years ended December 31, 2017 and 2016.

The management of the commercial areas indicated above is measured by the concepts presented in this note, which is based on the accounting principles applied to the consolidated statements of income of the Bank.

b) Types of derivatives

The Bank uses hedge accounting to manage its exposure to fair value risk and risk of changes in cash flows.

Fair value hedges:

For hedged items in both foreign currency and local currency, the fair value of the hedged item is hedged against changes in the base interest rate. The implicit credit spread is not considered in this type of strategy, These hedges reduce the market exposure of the hedged items and reduce the risk related to fair value changes due to changes in the interest rate.

NOTE 8 - DERIVATIVE FINANCIAL AGREEMENTS AND HEDGE ACCOUNTING, CONTINUED

The following tables provide a summary of the hedged items and hedging instruments for fair value hedge accounting as of December 31, 2017 and 2016:

	As of December 31, 2017		As of December 31, 2016	
Hedged item	**Assets**	**Liabilities**	**Assets**	**Liabilities**
	MCh$	**MCh$**	**MCh$**	**MCh$**

Total	**1,739,195**	**1,504,164**	**1,881,077**	**1,412,925**

Note: MX: Foreign currency; MN: Local currency.

Cash flow hedges:

The Bank uses cash flow hedging instruments such as cross currency swaps, forwards (inflation and exchange rate) and UF rate swaps to hedge the assets and liabilities exposed to variations in interest rates, exchange rates and/or inflation.

The following tables provide a summary of the hedged items and hedging instruments for cash flow hedge accounting as of December 31, 2017 and 2016:

	As of December 31, 2017		As of December 31, 2016

(*) Includes loans corresponding to Protected Assets Fund No. 27 as stated in Note 1, ah.

(**) Includes loans to college students, which are separately disclosed since 2016 in accordance with Circular No. 3,583 issued on May 25, 2016.

The collateral received by the Bank with respect to the loans portfolio relates to mortgages, and consists of cash, securities, accounts receivable, property and real estate assets, and warrants, among others.

The Bank uses financial lease agreements for terms from 1 to 10 years, depending on the contract, to finance acquisition of property, both movable and immovable for its clients, As of December 31, 2017 and 2016, the Bank held approximately MCh$724,983 and MCh$565,889, respectively, of financial leases on movable assets, and MCh$475,430 and MCh$508,588, respectively, of financial leases on property.

NOTE 10 - LOANS AND RECEIVABLES TO CUSTOMERS, NET, CONTINUED

The following table provides reconciliation between gross investment in lease and present value of minimum lease payments as of December 31, 2017 and 2016:

	As of December 31, 2017 MCh$	As of December 31, 2016 MCh$
Gross investments in lease	1,376,112	1,237,236
Unearned income from financial lease	(175,699)	(162,759)
Net financial leases	**1,200,413**	**1,074,477**

The following table sets forth the amounts by maturity period for the net financial leases, as of December 31, 2017 and 2016:

	As of December 31, 2017 MCh$	As of December 31, 2016 MCh$
Less than 1 year	276,481	257,565
Between 1 and 5 years	461,141	411,582
Over 5 years	462,791	405,330
Total	**1,200,413**	**1,074,477**

There is no evidence of impairment of the financial lease contracts that the Bank holds.

The Bank has obtained repossessed assets for an amount of MCh$18,715 as of December 31, 2017 and MCh$6,089 for December 31, 2016 through the execution of collateral held on assets.

NOTE 10 - LOANS AND RECEIVABLES TO CUSTOMERS, NET, CONTINUED

c) Allowances

The changes in allowances for loan losses during the periods ended December 31, 2017 and 2016 are summarized as follows:

	As of December 31, 2017			As of December 31, 2016		
	Individual Allowance	Collective Allowance	Total	Individual Allowance	Collective Allowance	Total
	MCh$	MCh$	MCh$	MCh$	MCh$	MCh$
Balances as of January 1,	**150,396**	**219,270**	**369,666**	**154,677**	**209,775**	**364,452**
Portfolio write-offs:						
Commercial loans	(28,212)	(60,063)	**(88,275)**	(7,228)	(73,959)	**(81,187)**
Mortgage loans	-	(7,326)	**(7,326)**	-	(7,456)	**(7,456)**
Consumer loans	-	(134,148)	**(134,148)**	-	(113,833)	**(113,833)**
Total Write-offs	**(28,212)**	**(201,537)**	**(229,749)**	**(7,228)**	**(195,248)**	**(202,476)**
Provisions	59,876	227,369	**287,245**	10,698	213,636	**224,334**
Reversal of provisions	(19,832)	(6,289)	**(26,121)**	(7,751)	(8,893)	**(16,644)**
Ending balances	**162,228**	**238,813**	**401,041**	**150,396**	**219,270**	**369,666**

In addition to these allowances for loan losses, the provisions for country risk are maintained to cover operations abroad, as well as additional provisions approved by the Board, which are presented as liabilities under "Provisions" heading (See Note 20). Therefore, the total amount of allowances and provisions for credit risk constituted for different concepts correspond to the following:

	As of December 31, 2017	As of December 31, 2016
	MCh$	MCh$
Individual and collective allowance	401,041	369,666
Provisions for contingent credit risk (Note 20)	19,179	20,179
Additional provisions	67,296	64,068
Minimum provision 0.50% (Note 20)	6,353	4,588
Provisions for country risk (Note 20)	2,368	1,926
Allowances on loans and receivables to banks (Note 9)	308	432
Total	**496,545**	**460,859**

During the period 2017 and year 2016, the Bank has not participated in the purchase, sale, substitution or swap of credits of the loan portfolio, except for operations disclosed in the present consolidated financial statements.

NOTE 10 - LOANS AND RECEIVABLES TO CUSTOMERS, NET, CONTINUED

d) Collateral

Impaired loan portfolio, secured and unsecured, before allowances for loan losses, as of December 31, 2017 and 2016 was as follows:

	As of December 31, 2017				As of December 31, 2016			
	Commercial	Mortgage	Consumer	Total	Commercial	Mortgage	Consumer	Total
	MCh$	MCh$	MCh$	MCh$	MCh$	MCh$	MCh$	MCh$

As of December 31, 2016	11	-	-	**11**

Furthermore, the balances of property, plant and equipment under finance leases as of December, 31, 2017 amounted to MCh$1,651 (MCh$1,647 as of December 31, 2016) and are presented as part of "Other Property, plant and equipment",

NOTE 15 - CURRENT AND DEFERRED INCOME TAX

a) Current Income Tax

As of December 31, 2017 and 2016, the Bank has recognized a first-category income tax and Unique Tax under Article No. 21 of the Income Tax Law, which was determined based on the current tax legislation, and recognized a net current tax asset amounting to MCh$ 6,832 as of December 31, 2017 (net current tax asset amounting to MCh$31,247 as of December 31, 2016). The detail of current tax assets net of current tax liabilities is as follows:

	As of December 31, 2017 MCh$	As of December 31, 2016 MCh$
Income Tax (tax rate of 25,5% for 2017 and 24% by 2016)	(87,722)	(76,691)
Prior year provision excess	880	(6,862)
35% Provision for Income Tax	(343)	(111)
Less:		
Monthly tax provisional payments	83,265	84,023
Credit for training expenses	1,800	1,821
Credit for acquisition of property, plant and equipment	3	9
Credit for donations	1,505	802
Income tax to be recovered	5,625	27,509
Other taxes and withholdings to be recovered	1,819	747
Total	**6,832**	**31,247**

Below is the net current tax per jurisdiction:

	As of December 31, 2017		
	Chile	Florida, USA	Total
	MCh$	MCh$	MCh$
Current tax asset	2,061	12,251	14,312
Current tax liabilities	(7,480)	-	(7,480)
Total net	**(5,419)**	**12,251**	**6,832**

	As of December 31, 2016		
	Chile	Florida, USA	Total
	MCh$	MCh$	MCh$
Current tax asset	34,689	-	34,689
Current tax liabilities	(1,064)	(2,378)	(3,442)
Total net	**33,625**	**(2,378)**	**31,247**

NOTE 15 - CURRENT AND DEFERRED INCOME TAX, CONTINUED

b) Income Tax Expense

The detail of income tax expense for the years ended December 31, 2017 and 2016, is as follows:

	For the year ended December 31,	
	2017	2016
	MCh$	MCh$
Income tax expense:		
Current tax for the year	(87,722)	(76,691)
Surplus/ Deficit of prior year provisions	-	-
Credit (charge) for deferred taxes:		
Origination and reversal of temporary differences	(79,685)	(7,891)
	(79,685)	(7,891)
Subtotal	(167,407)	(84,582)
Tax for non-deductible expenses in accordance with Article No. 21	(153)	(142)
Other	6	-
Income tax expense	**(167,554)**	**(84,724)**

c) Reconciliation of the effective income tax rate

The following is the reconciliation of the nominal income tax rate with the effective income tax rate for the years ended December 31, 2017 and 2016:

	For the years ended December 31,			
	2017		2016	
	Tax rate	Amount	Tax rate	Amount
	%	MCh$	%	MCh$
Income before income tax		538,979		424,933
Nominal tax rate	25.50	137,440	24.00	101,984
Difference in statutory tax rate of Florida subsidiaries and branch	1.664	8,968	2.492	10,590
Tax effect of non-deductible expenses in calculation of taxable income:				
Permanent differences	(0.655)	(3,528)	(5.889)	(25,023)
Effect on deferred tax due to the change in income tax rate of Florida subsidiaries and branch	5.663	30,524	-	-
Unique tax (rejected expenses)	0.028	153	0.033	142
Others	(1.114)	(6,003)	(0.699)	(2,969)
Effective income tax rate and income tax expense	**31.086**	**167,554**	**19.937**	**84,724**

The effective income tax rate for years 2017 and 2016 was 31.086% and 19.937%, respectively.

At the end of 2017, a tax reform law was published in the United States, which reduced the federal tax rate from 35% to 21% starting in 2018, as a result of which the subsidiaries domiciled in that country recalculated their deferred tax assets, which resulted in a loss of MCh$ 30,524.

NOTE 15 - CURRENT AND DEFERRED INCOME TAX, CONTINUED

d) Effect of deferred taxes recognized in equity

The deferred tax recognized in shareholders´ equity as of December 31, 2017 and 2016 is composed of the following:

	Accumulated		Effect for year ended	
	As of December 31, 2017	As of December 31, 2016	December 31, 2017	December 31, 2016
	MCh$	MCh$	MCh$	MCh$
Financial investments available for sale	(2,673)	(3,198)	525	(7,786)

NOTE 16 - OTHER ASSETS

a) As of December 31, 2017 and 2016, the composition of the other assets is as follows:

	As of December 31,	
	2017	**2016**
	MCh$	**MCh$**
Assets acquired to transfer to leasing (a)	109,899	92,638
Repossessed or awarded assets:		
Repossessed assets	1,844	1,477
Assets awarded from judicial auctions	14,376	3,389
Impairment of repossessed or awarded assets (b)	(1,145)	(76)
Other assets:		
Cash deposits held as guarantee	225,716	259,700
Investment in gold	3,636	3,515
VAT	7,394	8,186
Prepaid expenses	56,783	54,120
Property, plant and equipment held for sale	-	-
Assets recovered from lease agreements held for sale (c)	-	-
Account receivables	49,297	42,846
Amounts to be recovered	28,516	13,653
Macro hedge valuation adjustment	-	4,251
Prepayments of insurance rights on City National Bank of Florida (CNB) (d)	173,744	135,343
Other assets	14,246	52,705
FED and FHLB shares (e)	47,949	-
Total	**753,290**	**686,174**

(a) Correspondd to property, plant and equipment available to be used in finance leases

(b) Impairment of repossessed or awarded assets is recognized in accordance with the Accounting Standards Compendium Chapter B-5 No. 3, which implies recognition of impairment for the difference between the carrying value and the net realizable value, when the first is higher.

(c) Corresponds to assets recovered from leasing and available for sale, principally real estate, These assets are available for sale, which is considered highly likely to occur. For most assets, it is expected that the sale will be completed within one year period from the date on which the asset is classified as "Property, plant and equipment held for sale" and/or "Assets recovered from lease agreements held for sale."

(d) Corresponds to life insurance contracts for certain senior management of CNB, where CNB is the owner and beneficiary. CNB invests in these contracts, better known as BOLI (Bank Owned Life Insurance), considering that they provide an efficient way of funding retirement and other long term employee benefits.

NOTE 16 - OTHER ASSETS, CONTINUED

(e) Corresponds to shares recorded by the subsidiary BCI Financial Group, Inc, and Subsidiaries in its consolidated financial statement, for the Federal Reserve (FED) and Federal Home Bank Loans (FHBL) shares to be acquired by the Federal National Bank of Florida (CNB) in order to benefit from the funding programs these U.S. government agencies established in the State of Florida. CNB is required to maintain a specific level of holdings based on a formula provided by the respective agency,

b) The changes in the impairment of repossessed or awarded assets, for the years ended December 31, 2017 and 2016, are as follows:

	Impairment
	MCh$
Balance as of January 1, 2017	**76**
Impairment	1,198
Reversal of impairment	(129)
Balance as of December 31, 2017	**1,145**
Balance as of January 1, 2016	**240**
Impairment	76
Reversal of impairment	(240)
Balance as of December 31, 2016	**76**

NOTE 17 – BORROWINGS FROM CUSTOMERS

As of December 31, 2017 and 2016, the composition of borrowings from customers is the following:

	As of December 31,	
	2017	2016
	MCh$	MCh$
Current accounts and demand deposits		
Current accounts	8,451,948	7,345,946
Other deposits and accounts payable on demand	664,243	549,227
Other liabilities payable on demand	417,933	299,090

Total	**7,307,852**	**7,235,289**

NOTE 22 - CONTINGENCIES AND COMMITMENTS, CONTINUED

b) Lawsuits and legal proceedings.

BCI Bank

The Bank and its subsidiaries are involved in various pending legal lawsuits related to their businesses and which, in the opinion of the Management and their internal legal advisers, will not result in additional liabilities to those already recognized under IAS 37 by the Bank and its subsidiaries in its financial statements. Hence, Management did not consider that allocation of additional provisions to those already recognized for these contingencies is necessary.

BCI Corredor de Bolsa S.A.

As of December 31, 2017 BCI Corredora de Bolsa S.A., direct subsidiary of the Bank, has a bankruptcy revocation lawsuit dated August 8, 2011 in summary proceedings before the Twenty-Third Civil Court of Santiago, No. ROL-C 10251-2008, between Inversiones Acson Ltda,, BCI Corredor de Bolsa S.A. and others, Action seeks to declare the unenforceability of certain operations of liquidation performed by Alfa Corredores de Bolsa S.A. before being declared bankrupt for the amount of MCh$8,330. On May 26, 2015, the Twenty-Third Civil Court of Santiago delivered a judgment rejecting the action imposed by Acson Investments Limited, That ruling was appealed on June 9, 2015 by Inversiones Acson Limitada, and, subsequently in review of the case, was decisively rejected by the court on December 2, 2015, in respect of which Inversiones Acson Ltda, filed on December 18 of the same year an appeal, which favourably passed the first instance procedure in the Court of Appeals of Santiago. Notwithstanding the above, on June 21, 2016, the Supreme Court, at the request of the intervening parties, ordered the suspension of the proceeding for up to 17 working days from June 17, 2016. On July 19, 2016, the allegations took place in the First Chamber of the Supreme Court regarding the appeal filed by Inversiones Acson Limitada, whose judgment was in agreement, but pending. On October 26, 2016, the Supreme Court rejected the appeal filed against the ruling of the 9th Chamber of the Court of Appeals that had confirmed the sentence of first degree that rejected the action introduced. by Acson Investments Limited,

The probability of losing the lawsuit is low. No provisions have been made,

c) Operating guarantees granted:

- Direct commitments

The Bank as of December 31, 2017 has no such types of guarantees.

- Operating guarantees

NOTE 22 - CONTINGENCIES AND COMMITMENTS, CONTINUED

NOTA 22 - CONTINGENCIES AND COMMITMENTS, CONTINUED

d) Due to Banks commitments

The Company has commitments to its partner banks for custody-managed securities.

Administrador Financiero del Transantiago S.A.

Contingent liabilities

With respect to AFT's contingent assets and liabilities as of the date of the financial statements, the amounts detailed below correspond to the amounts under litigation and there is no reliable estimation of the disbursements that should be made under these concepts.

(a) Guarantees

As of December 31, 2017 there are eight performance bonds taken by AFT, for a total of UF 96,000, in order to ensure the proper performance of the contract subscribed with the Chilean Ministry of Transport and Telecommunications, and two performance bonds taken by AFT, for a total of UF 4,000 in order to guarantee the fulfilment of labour and social security obligations of AFT.

(b) Lawsuits

Pending lawsuits that could have a significant impact on the financial position of AFT are as follows:
(b.1) Manuel José Vial Vial:
• Subject matter: Counterclaim initiated by AFT against Buses Gran Santiago S.A. for contract performance.
• Amount: MCh$ 294.
• Current status: the period of providing evidence has been terminated and further procedures suspended by both parties.

Assessment: It is not possible to reliably estimate the outcome of this contingency or its amount.

(b.2) IVU Traffic Technologies AG and IVU Chile Limitada with AFT and Chilean Treasury Department:
• 19° Civil Court C-26424-2014. • Subject matter: Ordinary lawsuit for contractual and pre-contractual civil responsibility.
• Amount: € 8,539,309, equivalent to MCh$ 6,363 as of the date of the lawsuit (November 26, 2014), plus lawsuit costs.
• Current status: On December 13, 2017, the Court summons the parties for hearing.

Assessment: It is not possible to reliably estimate the outcome of this contingency or its amount.

NOTA 22 - CONTINGENCIES AND COMMITMENTS, CONTINUED

(c) Other administrative actions – tax

On August 25, 2011 the Internal Revenue Service ("SII" for its acronym in Spanish) notified a tax remission for the 2008 fiscal year, arguing an erroneous qualification of certain performance bonds and penalties collected by the Ministry of Transport and Telecommunications during 2007, which the SII considers as non-deductible expenses. AFT has filed, within the legally established time limit, administrative and judicial remedies against this remission, since it considers that there is a history of facts and law precedents that support its initial classification of expenses. The Regional Director of the SII Santiago Centre issued a resolution of the first instance, rejecting the claim filed by AFT, requesting the payment. This resolution was appealed by AFT within the established time limit. The Court of Appeals of Santiago resolved that the case should be returned to the Court of First Instance in order for the Court to supplement the judgement and, to date, the SII has not responded. This resolution was appealed by the AFT within the term and the Court of Appeals of Santiago (C-4669-2016) issued a final judgment on August 31, 2017, revoking the ruling appealed by the AFT. On December 28, 2017, the Court certified that the ruling is final and enforceable. On January 8, 2018, the AFT submitted a rectificatory declaration proposal to the SII for the 2016 and 2017 tax years.

Servicio de Infraestructura de mercado OTC S.A.

Tax process

As of December 31, 2017, there are no significant tax processes that affect Imerc OTC S.A.

At the date of issuance of these financial statements there is a tax inspection process that the subsidiary maintains before the Internal Revenue Service (S.I.I.), which had a citation date of October 16, 2017. This process is due to a review of Taxable Income Tax (R.L.I.) for loss of carryover, to date the S.I.I. is validating the information delivered by the subsidiary.

NOTE 23 – SHAREHOLDERS´ EQUITY

a) Issued capital and preference shares

Movements of common shares during the periods ended December 31, 2017 and 2016 are the following:

	As of December 31,	
	2017	**2016**
	N°	**N°**
Issued as of January 1	**123,564,219**	**110,806,999**
Share dividends	1,380,653	2,019,920
Shares subscribed and paid for capital increase	-	10,737,300
Total issued	**124,944,872**	**123,564,219**

NOTE 23 – SHAREHOLDERS´ EQUITY, CONTINUED

The Ordinary Shareholders' Meeting held as of March 28, 2017 approved the distribution of net income for the year 2016, for the amount of MCh$340,165, as follows:

- Distribute a dividend of Ch$1,000 per share among the total 123,564,129 shares issued and registered in the Register of Shareholders, which amounts to the sum of MCh$123,565.
- Allocate the remaining balance of the income for the year to Capital, that is, for the amount of MCh$216,600.

The capital of the Bank in accordance with the increase approved in this meeting amounts to MCh$2,527,140 divided into 124,944,872 shares of the same series with no par value, which are fully subscribed and paid in.

During the meeting held in May 2017, the Board of Directors called an Extraordinary Shareholders' Meeting to be held on June 29, 2017 in order to revert the capital increase decision approved by the Extraordinary Shareholders' Meeting held on March 28, 2017.

At the Extraordinary Shareholders' Meeting held on June 29, 2017 the following agreements were reached:

- Recognize the lesser value obtained in the placement of the shares corresponding to the capital increase approved on October 27, 2015, as a decrease in the capital to be paid, in the amount of MCh$33,720. As a result, the new amount in capital is MCh$2,276,820. Subsequently, an increase to Bank's capital by MCh$216,600 took place, according to the following detail:

    - Capitalization of a portion of retained earnings, through the issuance of 1,380,653 shares issued without payment, with no par value, for an amount of MCh$46,518.

    - Capitalization of a portion of retained earnings to Capital for an amount of MCh$170,082, with no shares issuance.

As a result of these capitalizations, the registered capital amounts to MCh$2,493,420, divided into 124,944,872 shares of a single series and with no par value.

On July 27, 2017, the Superintendency of Banks and Financial Institutions was requested to approve the final capital increase, which was authorized under resolution No. 479 dated September 13, 2017.

NOTE 23 – SHAREHOLDERS´ EQUITY, CONTINUED

The consolidated financial statements as of December 31, 2017, included the capital increase that was agreed to at the shareholders' meeting held on March 28 and subsequently affirmed on June 29, 2017.

(*) At the date of issuance of these consolidated financial statements, approval from Superintendency of Banks and Financial Institutions is still pending.

b) Dividends

The following dividends were declared by the Bank as of December 31, 2017 and 2016:

	As of December 31,	
	2017	2016
	Ch$	Ch$
Ch$ per common share	1,000	1,000

The provision for mandatory dividend as of December 31, 2017 was MCh$111,421 (MCh$102,049 as of December 31, 2016),

NOTE 23 – SHAREHOLDERS´ EQUITY, CONTINUED

c) For the years ended December 31, 2017 and 2016, the composition of basic and diluted earnings per share is as follows:

	For the years ended December 31,	
	2017	**2016**
Net income for the year attributable to the equity holders of the Bank, MCh$	371,403	340,165
Income available for Shareholders, MCh$	**371,403**	**340,165**
Weighted average number of shares	124,264,002	119,920,139
Basic and diluted earnings per share (Ch$/Share)	**2,989**	**2,837**

d) Cumulative translation adjustment reserve

As of December 31, 2017 and 2016, the reconciliation of the cumulative translation adjustment reserve as a separate component of shareholders' equity is as follows:

	MCh$
Balance as of January 1, 2016	**21,866**
Exchange differences	(3,416)
Balance as of December 31, 2016	**18,450**
Balance as of January 1, 2017	**18,450**
Reclassification to results of the year due to discontinuation of the equity method in Credicorp Ltd.	(14,846)
Net exchange rate charges for subsidiaries in Florida	(26,795)
Balance as of December 31, 2017	**(23,191)**

Reconciliation of the investment revaluation reserve and cash flow hedge reserve is as follows:

	Investment revaluation reserve MCh$	**Cash flow hedge reserve MCh$**
Accumulated comprehensive income 2015	**(27,381)**	**(15,867)**
Transferred to statements of income 2016	(3,989)	35
Market to market adjustment	31,540	(846)
Accumulated comprehensive income 2016	**170**	**(16,678)**
Transferred to statements of income 2017	1,668	6,095
Market to market adjustment	4,957	1,544
Accumulated comprehensive income 2017	**6,795**	**(9,039)**

NOTE 23 - SHAREHOLDERS´ EQUITY, CONTINUED

e) Nature of valuation reserves

- Cumulative translation adjustment reserve:

Originated by exchange rate differences arising from the conversion of a net investment in a foreign entity which has a different functional currency.

- Cash flow hedges reserve:

Originated by the valuation at fair value of the derivative contracts designated as hedging instruments in cash flow hedges. Over the contractual period of these cash flow hedges, these reserves must be adjusted based on the valuation at each reporting date.

- Investments revaluation reserve:

Originated by the valuation at fair value of financial investments available for sale. When the investment is impaired, sold or disposed of (as a whole or in part), the accumulated revaluation is transferred from this reserve to consolidated statements of income and recognized as part of the loss or gain related to investments.

f) Capital requirements

The regulatory capital as of December 31, 2017 is defined as equivalent to the net amount that should be shown in the consolidated financial statements as Shareholders' equity attributable to equity holders. As indicated in the Compendium of Accounting Regulations, according to General Banking Law, the Bank should maintain a minimum ratio of effective stockholders' equity to consolidated risk-weighted assets, net of required loan loss allowances and provisions and deductions, of 8%, and a minimum ratio of basic capital to consolidated total assets, net of required loan loss allowances and provisions and deductions, of 3%. Regulatory capital for these purposes is defined as basic capital (which represents paid-in capital and reserves) adjusted to: a) aggregate subordinated bonds issued by the Bank valued at their placement price for an amount up to 50% of its basic capital commencing nine years prior to their maturity, b) aggregate additional required allowances and provisions as stipulated, c) deduct all goodwill and share premium, and d) deduct assets that correspond to investments in non-consolidated subsidiaries.

The assets are weighted according to a risk category to which a risk percentage is assigned according to the amount of capital necessary to support each of these assets, five risk categories are applied (0%, 10%, 20%, 60% and 100%). For example, cash, deposits in banks, and financial instruments issued by the Central Bank of Chile have 0% risk, which means that according to the regulations in force, capital is not needed to maintain these assets, Property, plant and equipment have 100% risk, which means that a minimum capital, equivalent to 8% of these assets, should be held.

All OTC derivative securities are considered in the determination of risk assets with a conversion factor over the notional values, thus obtaining the amount of credit risk exposure (or "credit equivalent"), Off-balance contingent credits are also considered as a "credit equivalent."

NOTE 23 - SHAREHOLDERS´ EQUITY, CONTINUED

All OTC derivative instruments form part of risk-weighted assets, as a result of application of conversion factor to notional values of all such derivatives in order to get the amount of credit risk exposure (or "credit equivalent") that complies with Chapter 12-1 of Updated Compilation of Standards issued by SBIF. Credit commitments recognized off balance sheet are also considered as "credit equivalents" for the purpose of calculating the portion forming part of risk-weighted assets.

The regulated and basic capital as of December 31, 2017 and 2016 are the following:

	Consolidated assets and off-balance sheet items		Risk-weighted assets	
	As of December 31,		As of December 31,

Debt issued	5,020,307	5,656,595	4,398,430	5,064,358
Other financial liabilities	679,379	679,379	953,246	953,246
TOTAL LIABILITIES	**30,138,893**	**30,832,440**	**27,504,828**	**28,207,322**

The fair value estimates presented above, do not attempt to estimate the value of the bank's profits generated by their business or future activities and therefore, do not represent the value of the Bank as a going concern.

Methods used to estimate financial instruments' fair value are detailed below:

Loans and receivable to customers,

Loans and receivables to customers are presented net of their allowance for loan losses and impairment. The estimated fair value represents the discounted future cash flows expected to be received. Cash flows are discounted at market interest rate, using an interbank rate that considers the relevant term and currency.

NOTE 34 - ASSETS AND LIABILITIES AT FAIR VALUE, CONTINUED

The approaches used for the incorporation of credit risk of the assets are:

1. Based on the models of estimation of expected loss, it is possible to infer the credit quality of the portfolio (at least in qualitative terms) specifically, for the remaining term of the operations comprising the asset accounts considered (commercial loans, mortgage loans and consumer loans).

2. In quantitative terms, the provision percentage assigned to an operation results in an estimate of the provision based on the credit profile of the operation.

3. The resulting amount when applying the 'provisions/total loans' factor mentioned in 2) to the current principal and accrued interest outstanding of the respective loan is an approximation of the adjustment for credit risk (in other words, resulting in the allowance calculation).

Deposits and other borrowings

The estimated fair value of demand accounts and deposits, for which maturity is not established, including non-interest bearing accounts, is the amount payable when the customer demands it. The redeemed cost of these deposits is a reasonable approximation of their fair value.

The fair value of term deposits has been estimated on the basis of discounted future cash flows based on interest-rate structures adjusted from transactions observed at the valuation date.

Interbank borrowings

The fair value of liabilities to financial institutions has been determined using discounted cash flow models, based on the relevant interest-rate curve for the remaining term of the instrument to its maturity.

Issued debt instruments

The aggregated fair value of the bonds has been calculated based on the effective market rates at the closing of each period.

Fixed Income Securities and Derivatives

The fair value of debt instruments classified as trading and available for sale, as well as derivative instruments, is estimated using valuation techniques detailed in the c) below.

Other balance sheet accounts

For other balance sheet accounts the carrying amount was used, because they are items with very short-term flows and therefore their discounted value does not differ significantly from their carrying amount.

NOTE 34 - ASSETS AND LIABILITIES AT FAIR VALUE, CONTINUED

b) Financial instruments measured at fair value

Please refer to Note 1,k for further details on the criteria used to determine the fair value.

c) Hierarchy used for determining the fair value

The regulation distinguishes among different types of inputs used for the valuation techniques, differentiating between ''observable'' or ''unobservable'' inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the assumptions of the Bank and subsidiaries in relation to market behaviour. The following hierarchy has been established based on these types of inputs:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities, This level includes the debt instruments (whether fixed or variable income), equity instruments, and financial derivative instruments traded on domestic or international stock markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i,e, as prices) or indirectly (i,e, derived from prices). Prices may require interpolation within a price structure (e,g,, derivative instruments belong to this level). The same occurs with bonds assessed using a valuation technique like interpolation or matrix pricing, based on observable inputs.

Level 3 - Inputs for assets or liabilities that are not based on observable market data (unobservable inputs). This level includes equity and debt instruments whose valuation uses significant unobservable inputs.

This hierarchy requires maximise the use of relevant observable inputs and minimise unobservable inputs. The Bank and its subsidiaries consider the relevant observable market data in their valuations whenever it is possible.

NOTE 34 - ASSETS AND LIABILITIES AT FAIR VALUE, CONTINUED

Financial assets and liabilities classified by valuation levels

The following chart shows the assets and liabilities that are presented at fair value in the consolidated financial statements, classified in their respective levels of hierarchy previously described.

NOTE 34 - ASSETS AND LIABILITIES AT FAIR VALUE, CONTINUED

The above values do not include adjustments for CVA and Bid Offer, which amount to MCh$20,230 as of December 31, 2017 (MCh$15,435 as of December 31, 2016).

Transfers between Levels 1 and 2

The Bank and its subsidiaries have not made any transfers of financial assets or liabilities between Levels 1 and 2 during the period 2017.

Level 3 valuation reconciliation

As of December 31, 2017, the consolidated statements of financial position has assets classified as Level 3 which relate to Swap TAB contracts for which there are no market observable inputs.

d) Valuation of La Polar Bonds

As of December 31, 2017, the Bank has applied valuation techniques to determine the fair value of the financial instruments “BLAPO-F” and “BLAPO-G”, This enhancement builds on the Internal Rate of Return (IRR) of the last transaction of the existing market between the closing date of the consolidated financial statements and the date of redemption of the financial instrument.

NOTE 35 - RISK MANAGEMENT

1. Introduction

The Bank business activities involve identifying, evaluating, accepting and managing different kinds of risk or combinations of them. The main categories of risk to which the corporation is exposed are credit, liquidity, market, operations, and legal and reputation risks.

The Bank policies are designed to identify and analyse these risks, to establish adequate limits and controls, and to monitor the risks and compliance of established limits through the use of reliable and updated information systems. The Bank periodically reviews its risk management policies and systems to incorporate changes in the markets, regulations, products and new best practices.

In relation to financial risks, the organizational structure is designed to manage these risks efficiently, transparently and timely. It is formed by strategic units composed by the Board of Directors, the Executive Committee, the Finances and Risk Committee, and the Asset and Liabilities Committee (“ALCO”). These are divided into operative units such as the Corporate Risk Management, Trading and Institutional, and Distribution and Corporate areas, parts of the Investment and Finance Banking division. The flow of this information is processed and analysed by various support units such as Accounting, Middle and Back Office, Management and Process Control and Computers and Systems.

The senior strategic unit is the Board of Directors. Its main responsibilities regarding financial risk management are establishing adequate policies and levels of risk, establishing exposure limits, the monitoring of risks, and ensuring best practices through the permanent evaluation of the actions of the Finance and Investment Banking and the Corporate Risk Management areas. The Board of Directors delegates to the Executive Committee and the Finances and Risk Committee the supervision and support to carry out the Bank’s strategic objectives in their interactions with corporate Management.

The Finances and Risk Committee also analyses in detail the strategies and models associated with the treasury function, both in the trading portfolio and the Bank’s books, and the performance and risks associated with such strategies.

ALCO (Assets & Liabilities Committee) is the committee where the corporation’s assets and liabilities policy is discussed and agreed for the approval of the Board of Directors or the Executive Committee. The general objectives of the ALCO Committee are to ensure the Bank’s adequate liquidity, protect the capital, make decisions on the financing of loans, and maximize the financial margin subject to the risk restrictions imposed by the Board of Directors and the Finances and Risk Committee.

The Corporate Risk Management and its Operational Risk, Credit Risk, and Market Risk units are responsible for the integral management of the Bank’s risk. While a few years ago it was common in the industry to have an independent, internal department manage these risks, the development of derivative markets and the acceptance of common methodologies, such as the concept of maximum loss, value at risk, etc,, have made limits increasingly more subject to fluctuation. Therefore, this management area has a corporate reach, with a comprehensive vision of the risks involved.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Financial Risk Management has the role of evaluating and controlling the Bank's exposure to market risk, both on or off the consolidated statements of financial position; pricing risks associated with interest rates, exchange rates, volatility, maximum loss, etc,, are measured and monitored. This is complemented by the analysis of scenarios and simulations to obtain a better measure of the risk. The Financial Risk Management is also responsible for defining the valuation methodologies for the financial assets and liabilities measured at fair value held by the corporation on or off the consolidated statements of financial position.

In accordance with best practices, the Bank defines the segregation of activities between areas that could present conflicts of interest in their objectives, such as:

i. Investment and Finance Banking division.
ii. Support areas, operative departments (Back Office, Middle Office).
iii. Financial Control and Planning (Accounting, Management Control).
iv. Financial Risk and Credit Risk, components of Corporate Risk Management.

The total segregation of duties implies a physical and organizational separation of the areas.

2. Liquidity and financing

When banks face confidence crises and bank runs, even if they are solvent they may find it difficult to comply with their short-term obligations and even face bankruptcy. These situations are uncommon but have large potential losses associated with them. For this reason, the Bank has improved the management of liquidity, defining adequate policies along with procedures and models that accordingly satisfy the regulations in force, The model has four core elements:

1. Presence of a minimum reserve of liquid assets to face stress situations.
2. Regulatory and internal liquidity indicators.
3. Accounting mismatches (relating to maturity).
4. Alert and contingency plans.

The policy and liquidity management models seek to guarantee, even in front of unexpected events, the Bank's capacity to respond adequately to its short-term obligations. In this regard, the Bank has continuously monitored the impact of recent events on financial markets, introducing more conservative assumptions when justified.

The management of liquidity and funding is basically carried out by Treasury in accordance with practices and limits reviewed periodically by ALCO and authorized by the Board of Directors.

These limits may vary according to the depth and liquidity shown by the markets in order to anticipate unlikely capital expenditures while providing funding at a competitive cost.

NOTE 35 - RISK MANAGEMENT, CONTINUED

The Bank has internally set explicit minimum limits for the liquidity level, parallel to the limits of Technical Reserve, which are periodically subject to simulations of stress testing for balances of current accounts and deposits, which are the Bank's main sources of liquidity. This is performed using a periodic evaluation framework of the additional needs of financing due to events of tight liquidity, together with the monitoring of the market. In this way, the periodic generation, projection, evaluation, and analysis of liquidity stress scenarios facilitate the anticipation of future difficulties and the agile and reliable execution of preventive actions before unfavourable scenarios.

At the regulatory level, liquidity is measured and reported to the SBIF through the standardized reports. According to bank regulations, the Bank has been authorized to use an adjusted liquidity model, generating procedures and models that allow an evaluation of future income and liabilities that affect the Bank's liquidity position, keeping in control the internal and external limits that the regulatory purposes, especially for mismatches between assets and liabilities at 30 and 90 days.

The Bank has set strict limits, forcing itself to maintain a large amount of liquid assets on its consolidated statements of financial position which, in the event of any unexpected requirement, can maintain liquidity through repurchase agreements with the Central Bank of Chile. The counter-cyclical nature of this liquidity reserve is adjusted to the spirit of the latest recommendations proposed by Basel.

In the measurement of liquidity, both internal and regulatory, a reasonable level of liquidity was observed in line with the Bank's policies. Even in the moments of highest uncertainty due to the global financial crisis, there were no events indicative of a loss of confidence of the people, nor mass removal of accounts or deposits by customers, confirming the confidence of the people towards the Chilean banking system in general.

The rates of short-term mismatch remained bounded, keeping a certain amount of slack with respect to regulatory limits given the capital base measured at 30 days and two times capital (for measurement at 90 days).

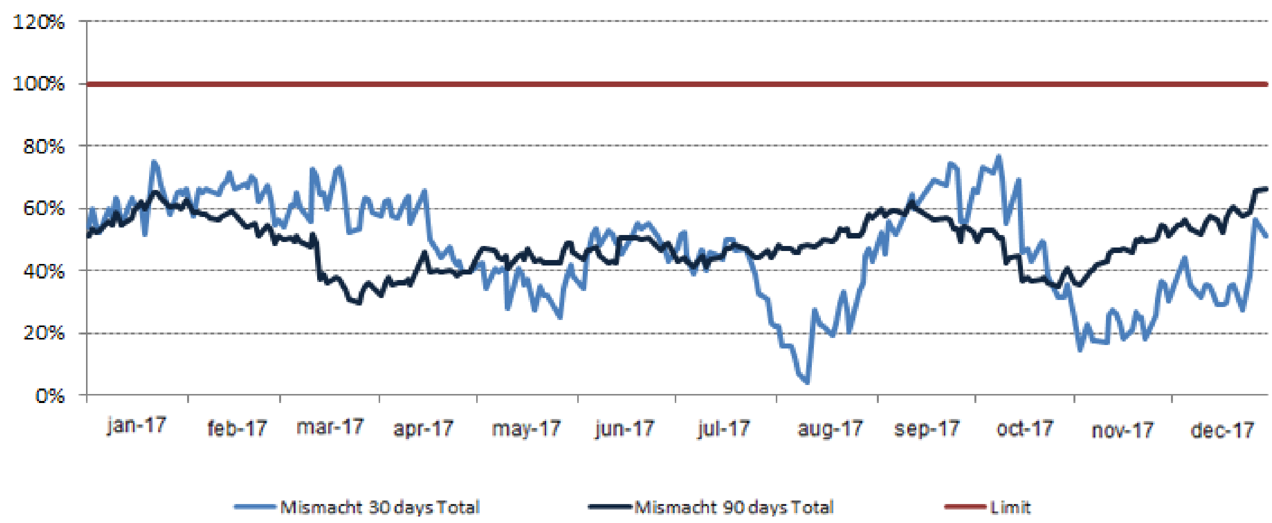
Liquidity 30 days = Mismatch/Basic Capital
Liquidity 90 days = Mismatch /2x Basic Capital



3. Market Risk

Market risk is the risk inherent in the price variations of financial assets.

Variations in interest rates, the exchange rate, commodities and shares prices, credit spreads, volatility, etc,, constitute a risk known as market risk. This is expressed in the possibility of incurring losses that will be translated to the statements of income or the balance sheet depending on the type of financial instrument and its respective accounting treatment.

The Bank manages its exposure to market risk between trading portfolios and portfolios available for sale or held-to-maturity. Trading portfolios include positions coming from sales to corporate and institutional clients, positions coming from market making business, and hedge or trading positions. The AFS and held to maturity portfolios hold positions mainly related to interest rate management associated with personal and commercial banking loans, in addition to a portfolio of financial investments. These portfolios have less rotation and their change in fair value does not affect the consolidated statements of income for the period until maturity, except in the case of impairment over the available for sale portfolio.

A series of tools are used to monitor the market risk of positions in each category, these include value-at-risk (VaR), CVaR, simulation, and stress analysis. The corporation uses the algorithmic platform to support the measurement and management of the market risk and counterparty risk.

NOTE 35 - RISK MANAGEMENT, CONTINUED

a. Top holdings

The principal positions of the Consolidation Statements of Financial Position as of December 31, 2017 are listed by maturity band or repricing and their comparison to the year 2016.

b. Sensitivity analysis

Sensitivity analysis is used to monitor the market risk of positions by sensitivity to each of the risk factors, for example, a change in the present value of 100 basis points in the interest rate is a type of risk factor. This type of model is especially useful for measuring the risk of a mismatch between assets and liabilities, i.e., essentially the banking book.

The regulatory sensitivity measurements perform these analyses by applying interest rates, exchange rates, inflation, commodities positions, shares positions, and exposure to derivative instruments, according to predetermined sensitivities.

The Bank also performs measurements for sub-portfolios and different risk factors.

Among the models used is Market Value Sensitivity or MVS, which measures the change in economic value of equity in the event of a parallel movement of 100 basis points in interest rates.

For a short-term horizon, the Spreads at Risk or SAR model is used, which measures the impact on results in 12 months' time of a parallel movement in rates, For both models, there are explicit internal limits measured as a ratio of capital (for MVS) and of financial margin (for SAR).

The Bank structurally generates risk rate exposure, which is mainly explained by maintaining long-term fixed rate assets and obtaining short-term financing, such as deposits, In this regard, the Bank is an active market participant in managing their interest rate risk strategy using hedge accounting.

NOTE 35 - RISK MANAGEMENT, CONTINUED

In the scenario of 100 basis points increase, holding constant other variables, the effects compared at the end of the years ended December 31, 2017 and 2016 for the Bank are the following:

- In the short-term, exposure to interest rates as of December 31, 2016 and 2017, amounted to MCh$31,904 and MCh$23,249 respectively, equivalent to expect an adverse effect on the financial margin over a 12 months horizon.

- The sensitivity rate risk applied to all items in the banking book and all deadlines, measured by MVS, as of December 2017 and 2016, are MCh$182,216 and MCh$130,288 respectively. The risk maintained its upward trend as in previous periods.

c. Value at Risk

Value-at-Risk (VaR) is a methodology that estimates potential losses that might affect a portfolio as a result of adverse interest-rate movements and/or market-price changes over a period of time and for a certain level of confidence.

The VaR methodology used is a historic simulation that records the *fat-tails* property of the financial income, it uses a window of 4 years of daily data, and it is measured at the first percentile of the P&L distribution or VaR at 99% of confidence, which is the same. The *volatility up dating* technique is used, which records the existence of volatility *clusters*.

The *forecast* horizon is of 1 day. The square root rule is used to escalate this value to the regulatory horizon of ten days.

The value-at-risk model is validated by *back-testing* the daily results, both observed and theoretical, Statistically, excess losses of VaR are expected to be observed on average 1% daily. As of December 31, 2017, *back-test* places the model in the green area of Basel with 5 fails in the last 250 business days.

Objectives and limitations of the VaR methodology

The objective of the VaR is to measure the risk of a portfolio of assets by determining how much you can lose of the portfolio over a period of time and with a given confidence level under normal market conditions.

This method is very easy to apply in portfolios that include information on relevant market variables. Furthermore, calculation does not depend on correlations and volatilities, as these are implicitly calculated using historical information. However, this means obtaining the history of associated variables for performing this calculation, which implies an effort to have such data. In addition, to have a certain degree of confidence in the measurement, in this case with VaR at 99%, this leads to the loss of 1 in every 100 days, which will be the least as predicted by the VaR, without a possible limit for this value.

NOTE 35 - RISK MANAGEMENT, CONTINUED

- **Stress Testing VaR**

There are limitations of the VaR models, particularly in the presence of extreme events that have not been observed in recent historic information or for not capturing the intra-day movements of the portfolio, therefore, stress situations are modelled to evaluate potential impacts on the value of portfolios in the most extreme, although possible, events. The scenarios used are the following:

I. Historic simulation scenarios that incorporate fluctuations observed during historic extreme events.
II. Monte-Carlo simulation scenarios, which generate multiplicity of possible scenarios from the historic data.
III. Scenarios of sensitivity that consider movements in risk factors that are not captured by the recent history.

- **VaR limits**

The Corporation has set specific limits to the corporate VaR, as well as sub-limits to the trading, balance and available for sale investments portfolios.

d. Position Limit

In addition to the limits of risk models predictive character as VaR and sensitivity analysis, there are accounting limits by maximum positions.

e. Variations

- Sensitivity analysis of the banking book.

The use of hedge accounting and bond, help keep the risk of interest rate limited in the banking book.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Long-term MVS averaged during 2017 5.77% (7.09% during 2016) of capital over a limit of 8.5%. The SeR, meanwhile, averaged during 2017 3.41% versus an average of 3.77% during 2016.

X1: Limit on financial margin
X2: Limit on effective equity

The evolution of regulatory ratios X1 (short term exposure to market risk) and X2 (long term exposure to market risk) were below the limits in 2017, mainly due to the management of the balance sheet through hedge accounting.

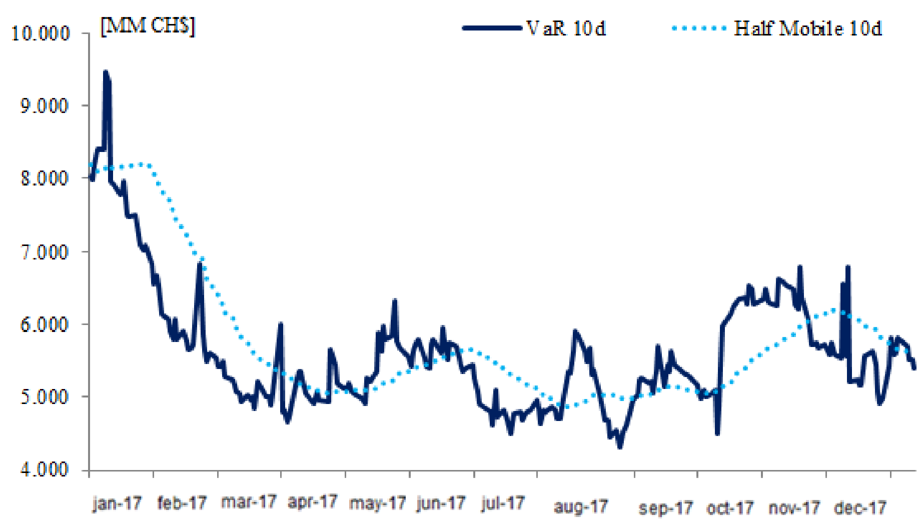
Value at risk

The evolution of the 10-day VaR for the last quarter; data as of December 31, 2017.

Fig, 16, Consolidated Value at Risk
As of December 31, 2017 (MCh$)



NOTE 35 - RISK MANAGEMENT, CONTINUED

During 2017, the average consolidated total risk MCh$5,555 measured over the regulatory horizon of 10 days experienced a decrease of 41% over the December 31, 2016 average.

On a consolidated basis, the risk of interest rate averages MCh$4,962 while the foreign currency risk averages MCh$2,115. In trading the aggregate average was MCh$3,652, MCh$3,591 for interest rate risk and MCh$673 for foreign currency risk. Finally, for non-trading portfolios (investments available for sale) the total VaR averaged MCh$1,194, MCh$829 for interest rate risk and MCh$830 for foreign currency risk.

While VaR captures the Bank's daily exposure to the risks of currency and interest rate sensitivity analysis, it also evaluates the impact of a reasonably possible change in interest rates and exchange rates over one year. The longer time frame of sensitivity analysis complements VaR and helps the Bank to assess their exposure to market risk. The details of the sensitivity analysis for the risk of exchange rate and interest rate risk are set out below.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Sensitivity of interest rate

Currency Risk

The currency risk is defined as the risk that the value of a financial instrument will fluctuate true to changes in exchange rates. The Bank is exposed to the effects of fluctuations in prevailing exchange rates regarding its financial position and cash flows.

NOTE 35 - RISK MANAGEMENT, CONTINUED

The Bank's exposure to the risk of exchange rates of foreign currencies is presented in the table below:

NOTE 35 - RISK MANAGEMENT, CONTINUED

Sensitivity of currency risk

The following tables detail the Bank’s sensitivity against an increase and decrease of 10% in the Chilean peso against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents Management's assessment of reasonable possible changes in exchange rates.

The sensitivity analysis includes only outstanding monetary items denominated in foreign currencies and it adjusts its conversion at the end of the period, of which it reports a 10% change in the exchange rates. The sensitivity analysis includes external loans as well as loans to foreign operations with the Bank where the loan is denominated in a currency other than the functional currency of the lender or the borrower. A positive number below indicates an increase in earnings and other net equity when the Chilean peso goes up by 10%, compared to the corresponding currency,

In the case of a low of 10% of the Chilean peso against the relevant currency, a comparable impact on the earnings and other equity would be produced, and the amounts would be negative, as shown below.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Limitations of sensitivity analysis

The above tables demonstrate the effect of a change in a key assumption while other assumptions remain the same. In fact, there is a correlation between the assumptions and other factors. It should also be noted that these sensitivities are non-linear, and larger and smaller impacts should not be interpolated or extrapolated from these results.

The sensitivity analyses do not take into account that the Bank's assets and liabilities are actively managed, moreover, the financial position of the Bank may vary at the time when an actual market movement occurs. For example, the strategy of financial risk management of the Bank seeks to manage the exposure to market fluctuations. As investment markets go through different trigger levels, management actions could include selling investments, changing the allocation of the investment portfolio and taking other protective measures.

Consequently, the actual impact of a change in the assumptions may not have any impact on the liabilities, whereas assets are held at market value on the consolidated statements of financial position. In these circumstances, the different measurement bases of assets and liabilities could result in volatility of equity.

Price risk - own products

The Bank is exposed to price risks of its products that are subject to general and specific fluctuations in the market.

The Bank manages price risk through the estimation of periodic stress tests, which establish various scenarios of adverse market conditions; on the other hand it has contingency plans that address mitigating actions in the corporation in order to face scenarios that expose the corporation to significant loss.

Other Price Risks

The price risk of equity is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to individual value and its issuer or factors affecting all actual market values.

Considering the exposure to equity price risk at the end of the reporting period, if the value of financial instruments had changed by 1%, the negative effect on equity would amount to MCh$ 50,000, an amount lower than that recorded in December 2016. that reached MCh$ 80,600. It should be added that these valuation price differences do not affect the net income of the year as of December 31, 2017, in accordance with the accounting rules that affect the instruments belonging to this portfolio.

NOTE 35 - RISK MANAGEMENT, CONTINUED

f. Fair Value

The area of Market Risk is responsible for defining the methodologies of valuation of assets and liabilities measured at fair value, while operations are responsible for the implementation thereof. The fundamental principle of the task of fair value measurement is to determine the starting price of an asset or liability in an ordinary transaction in a representative market. But not only the accounting information depends on this assessment; risk indicators such as value-at-risk are also based on these prices, so that the implied volatility on any valuation model is also very relevant.

The following international accounting rules, are used - provided they are available- quotations or observable prices of identical assets or liabilities that are measurable. These are known as Level 1 Inputs . Absent identical assets or liabilities, measurement is made based on observable prices, Interpolations are typically performed in this group in the case of derivatives and other instruments or matrix pricing models for fixed income instruments - this class is known as Level 2 inputs.

Finally, when it is not possible to rely on the above inputs, the measurement is performed based on inputs that are not directly observable on the market. These are the Level 3 Inputs. Note 34 presents the classification of financial instruments according to the valuation hierarchy. Below is a brief explanation of that system.

Positions in foreign currency bonds Central Bank and futures contracts and other instruments traded on exchanges have very liquid markets where prices or prices for identical instruments are usually observable. These instruments are included in Level 1.

Even for liquid instruments, some markets require the existence of brokers to equate supply with demand and allow transactions to be carried out under those circumstances. Normally deposits and derivatives traded over-the-counter are in this segment. These have quotes from different broker, which guarantees the existence of market prices or inputs needed for valuation. Among derivatives instruments are currency forwards and interest rate forwards, interest rate swaps, cross-currency swap and foreign currency options, As usual for those instruments other than those listed, valuation techniques and interpolation curves that are standard in the market are used. Debt instruments are less liquid as some sovereign bonds, corporate bonds and mortgage securities of domestic issue, and are valued - unless there is available pricing - based on fair value models based on directly observable prices or market factors. All these instruments are classified in Level 2 valuation.

The base model for the valuation of fixed income securities without much liquidity in the local market is a dynamic model of interest rates using panels of incomplete data and incorporates all the recent price history of the papers in question and instruments with similar characteristics as to issuer risk rating, duration, etc. The fair value models used both internal and external are tested periodically and back tested by independent parties.

Finally, all instruments whose prices or market factors are not directly observable are classified in Level 3.

NOTE 35 - RISK MANAGEMENT, CONTINUED

g. Derivative instruments

As of December 31, 2017 the Bank had a net liability position of MCh$113,864 in derivative instruments measured at fair value, Derivatives are classified into two groups according to their accounting treatment: (1) instruments for trading and (2) instruments with special hedge accounting treatment, The trading instruments come from activities of Sales & Trading (S&T), whether from sales to third parties or hedging the risks involved in such sales, The areas responsible for Asset & Liability Management (ALM) also use derivatives to hedge their risks, They can follow the standard treatment for negotiation (trading) or have special hedge accounting treatment. The recording, according to current accounting standards, may reduce fluctuations in the value of assets and liabilities or cash flows.

The market risk associated with derivative instruments is measured by VaR and stress tests.

h. Counterparty risk

The Bank manages its counterparty risk by establishing a limit for transactions (credit line) to enter into with each customer in derivatives and recognizes the Credit Value Adjustment (CVA).

Use of line

The level of usage of the credit line approved by the Bank for each customer due to an over-the-counter (OTC) derivative transaction must match the credit exposure that this transaction generates to the Bank. The credit risks on these contracts exist when the recovery or mark-to-market (MTM) is positive in favour of the Bank. As these contracts are valued daily, in this there is uncertainty regarding the mark to market adjustment over the life of the operation.

Monte Carlo simulation techniques are used to estimate future peak exposures by counterparty. Specific counterparty limits ensure that the accepted risk levels are not exceeded and proper diversification is achieved, The table below details the level of usage of the credit line by segment as of December 31, 2017 and 2016.

Segment	December 31, 2017 MCh$	December 31, 2016 MCh$

Total	**1,719,329**	**1,505,734**

NOTE 35 - RISK MANAGEMENT, CONTINUED

Adjustment for credit risk in derivatives (CVA)

The objective is to determine the expected loss for counterparty risk in OTC derivative contracts. The CVA of a derivative is defined as the difference between the value of open derivative counterparty risk (equivalent to the original derivative without risk of default of either party) and the value of a derivative (which corresponds to the original derivative, which has an inherent risk) considering the possibility of counterparty default, Thus the CVA of a client can be obtained from the expected exposure (EE) for counterparty risk (how much is expected to lose) and the rate of expected loss (EL) associated with the default of the counterparty. The table below details the provision of CVA segment at the ended December 31, 2017 and 2016.

Credit Value Adjustment

i. Hedge accounting

The Bank uses hedge accounting to manage the risk of fair value and cash flow to which it is exposed.

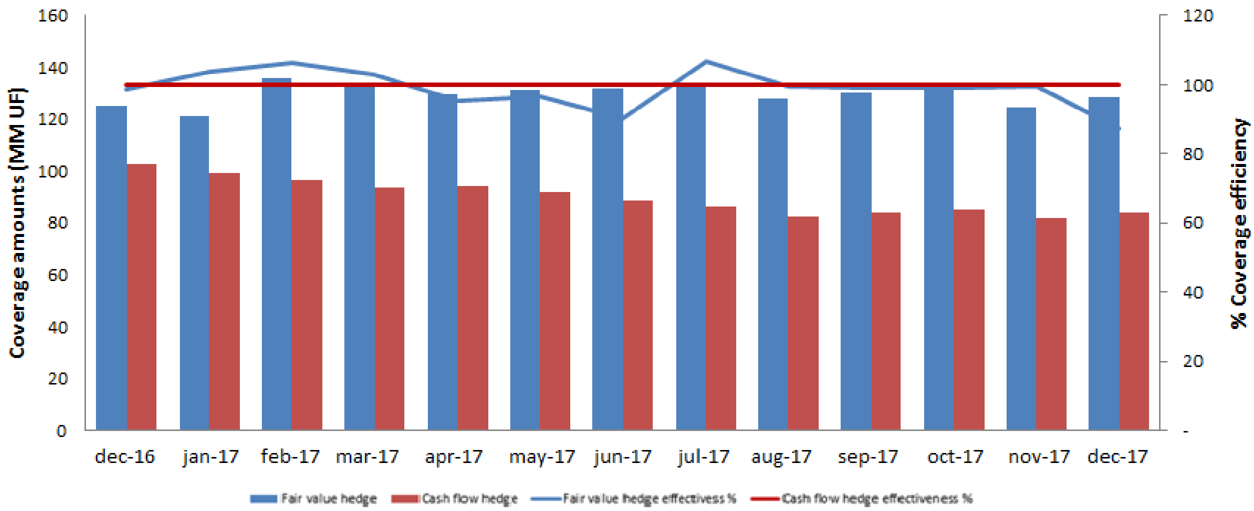
Fair value hedges use derivative instruments to hedge the change in fair value of an asset or liability in the consolidated financial statements.

Cash flow hedges effects meanwhile are recognized in equity, Treatment of this type of instrument strictly follows International Accounting Standard (“IAS”) 39, Financial Risk Management is responsible for designing and validating the effectiveness of the hedges, generating effectiveness indicators that are monitored and reported to ALCO.

As of December 31, 2017 the total notional amount of cash flow hedges amounted to UF 83,886,439 whereas fair value hedges reach UF 128,499,191(including macro hedge).

NOTE 35 - RISK MANAGEMENT, CONTINUED

Fig, 19, Amount, Type and effectiveness of Hedge Accounting
As of December 31, 2017 (UF Millions)



CREDIT RISK

Risk Management structure

The Bank has structured its credit approval process on the basis of personal and non-delegable discretionary limits authorized by the Board of Directors, Based on these credit faculties, the operations are approved at the different levels of Management, always requiring the concurrence of two executives with discretionary limits,.

As the amount of the operation increases, pairs of senior executives both from the commercial and risk areas and from the senior management committees must approve the operation, until reaching the highest level represented by approval from the Board of Director's Executive Committee.

Provisions for credit risk

According to the Superintendency of Banks and Financial Institutions (SBIF), the Banks should permanently maintain evaluations of their loans and contingent credit portfolios, in order to establish provisions opportunely and sufficiently, so as to cover possible losses, in accordance with the regulation of said Superintendency, contained on Compendium of Accounting Standards, chapter B1 referring to provisions for credit risk.

The Bank has a series of models both for the individual and the group portfolios, which are applied depending on the type of portfolio and operations. These models are approved by the Board of Directors, which is informed annually about the adequacy of the provisions.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Models based on the individual analysis of borrowers

These models are applied when the companies involved, given their size, complexity or level of exposure with the entity, are required to be identified and analysed in detail, one by one.

These models consider the analysis of issues such as the financial situation of the borrower, payment behaviour, knowledge and experience of the partners and managers in the business, the degree of commitment of the same with the company and the industry in which it operates and its relative position.

Quality of the loans by type of financial asset

Regarding the quality of the loans, these are described in accordance with the Compendium of Accounting Standards issued by the Superintendency of Banks and Financial Institutions (SBIF):

	As of December 31, 2017

(3) In this line loans and receivables are included for an amount of MCh$22,324,012 (see Note 10) and credit commitments of MCh$6,396,575 (see Note 22), Reported collateral is legally pledged to the Bank and there is no uncertainty regarding its possible execution or settlement.

(4) For the year 2016 no collateral was provided in favour of the Bank.

Operational Risk

The Bank manages its operational risks through specific committees with the active participation of those responsible for the areas and processes. These committees are: a) committee for operational risks b) security of information and technological risk, c) continuity of business and d) externalized services. These committees meet periodically and their objective is overseeing the proper execution of programs for the identification and evaluation of risks, as well as managing the identification of causes in order to mitigate such risks.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Information Security

The Bank has a security strategy based on the best practices of the industry which is sustained in the regulatory frame and whose main component is the General Policy for Information Security, approved by the Board of Directors Committee, an organization consisting of specialized areas, where the recent creation of a dedicated unit to manage cybersecurity risks is highlighted, adding to the existing units oriented to the administration and operation of security and focused on the administration and operation of security and the management of technological risks, and an Information Security Committee consisting of representatives of several areas of the Bank that monitor compliance with the annual plan of security and the approval of specific policies for security.

This strategy is implemented by various investments during 2017 in order to strengthen technological infrastructure and specific procedures of operation and monitoring of cybersecurity, oriented towards preventing, identifying and stoping attacks on the information security of the clients and the Bank.

Business continuity

The continuity strategies developed during the last several years have been consolidated, adding new risk scenarios and increasing the coverage plan to the different units that need to continue operating in situations of contingency.

The Bank is constantly working on strengthening of its business continuity plan. Plan coverage has increased according to the requirements of the Bank, including the processes that are critical.

During 2017, significant investments have been made in order to strengthen information and communication technologies and improve the Bank's capacity to maintain the continuity of its services to clients and the community, in the face of contingency scenarios that may occur. At the same time, activities has been carried out for maintaining and improving business continuity including updating, testing and training of employees. The tests were carried out during working hours, with customer service in order to validate the effectiveness of the procedures and continuity strategies that were established, giving a constant and satisfactory customer service. Tests carried out involve the implementation of operational procedures, technological tests and drills.

Prevention of fraud

This function is responsible for implementing a corporate fraud prevention strategy, both internal and external, that safeguards the patrimony of our clients, the Bank and protects the reputation of BCI. To this end, new processes, technologies, methodologies and models have been implemented to prevent and anticipate fraud risks, as well as activities to strengthen the culture and adherence to the ethical framework for the good work of the Bank's employees.

In this area, the dissemination of the Code of Ethics, Internal Regulation of Order, Hygiene and Safety, Manual for the Prevention of Criminal Risk, and Behavior of Confidence Break has been reinforced.

NOTE 35 - RISK MANAGEMENT, CONTINUED

Management of operational risk in suppliers

The Operational Risk Management has a risk management program in Outsourced Services for the Bank, which aims to identify and timely manage the risks that may exist in a process contracted to a third party during the lifecycle of the outsourced service, that is, since the service is contracted until the contractual relationship is extinguished. Depending on the risks identified, decisions are made to keep risks within acceptable levels for BCI.

Capital calculation according to Basel

The Bank has participated in the capital calculation exercises according to the standards of Basel II (QIS), a calculation integrating the operating risk with credit and market risks, as a global indicator of risk exposure, however, the Bank during 2017 and 2016 made the calculation of Operational Risk Capital under the Advanced Model and the Standard Model.
